

Paramount Identity360 is a consulting & deployment service with Zero Trust approach using solutions that will provide secure access to everything for everyone, by providing identity and access management, Cloud infrastructure entitlement management (CIEM) and Identity verification powered by Microsoft 365 & Entra solutions suite.

# Increasing Cyber attacks Over high privilege Identities & Permission visibility is a Challenge

In today's disruptive technologies customers' challenge is to manage identities & permission visibility hosted in a multi-cloud environment. Paramount Identity360 solution simplifies and overcomes this challenge.

## CHALLENGES

- Complexity of Identity Security.
- Poor visibility of High privileged accounts
- Permission Creep over time

## IDEAL SOLUTION

- Secure adaptive access using Azure AD Premium
- Unified Identity Management with Azure AD IAM
- Entitlement Management for workloads using Microsoft Entra permission management

## DESIRED OUTCOMES

- Seamless user experience Connect across the Cloud platforms using single IAM solution
- Protect & Govern identities
- Minimize risks for cloud access

## Paramount Identity360 brief

Paramount's Identity360 is a comprehensive service that covers full identity and access management with strong authentication, SSO, Password less, risk-based access, continuous access monitoring, access governance and remediates permissions across the multi-Cloud. Microsoft Entra has bolstered its security portfolio with the Azure Active Directory Premium & Entra Permissions Management suite offering Cloud Infrastructure Entitlement Management (CIEM) solution that enhances the ability to enforce least privilege access across multiple clouds.

### 1 Granular Visibility

A unified model to manage permissions of any identity across any cloud.

### 2 Entitlement Management

Zero Trust security to implement least privilege access across their entire infrastructure using Microsoft Entra Permissions management.

### 3 Integration Benefit

Simplified integration & real-time visibility to manage Multi-Cloud Infrastructure meet compliance requirements..

# Paramount Identity360 Powered by Microsoft Entra

Paramount is a leading cyber security company partnering with Microsoft providing an extensive Zero Trust security model. Paramount Identity360 offers identity security solution for strengthening overall security.

Azure AD Safeguards your organization with an identity and access management solution that connects people to their apps, devices, and data with a zero-trust security approach.

Entra permission Management Discover, remediate, and monitor permission risks across your multi-cloud infrastructure with a cloud infrastructure entitlement management (CIEM) solution

Entra Verified ID create, issue, and verify privacy-respecting decentralized identity credentials with an identity verification solution that helps you enable more secure interactions with anyone or anything.

## Identity Governance & Administration

Identity protection & Govern access permissions across the identity, cloud apps, periodic access reviews & RBAC to control.

## Permission Visibility

Entra is a purely cloud-native solution that provides deep visibility into permissions assigned to all identities and resources across multiple clouds.

## Secure & verify every Identity

Effectively securely monitoring every identity including employees, customers, partners, apps, devices, and workloads across every environment

Paramount Offerings  
Identity360  
IAM Plan1

# IAM Standard Plan - 8 weeks

- ✓ Strong Authentication – Single sign-on (SSO), Office 365 & Line of business applications MFA integration (up to 10 applications)
- ✓ Authorization Policy – RBAC & Conditional Access fine-grained policies.
- ✓ Azure AD password protection – Protecting against password sprays, Brute force attacks & Compromised password
- ✓ Self-service password reset – Reset, change & unlock for cloud Identities.
- ✓ Azure AD application proxy – Enabling strong authentication (MFA) for on-premises traditional applications (up to 10 apps)

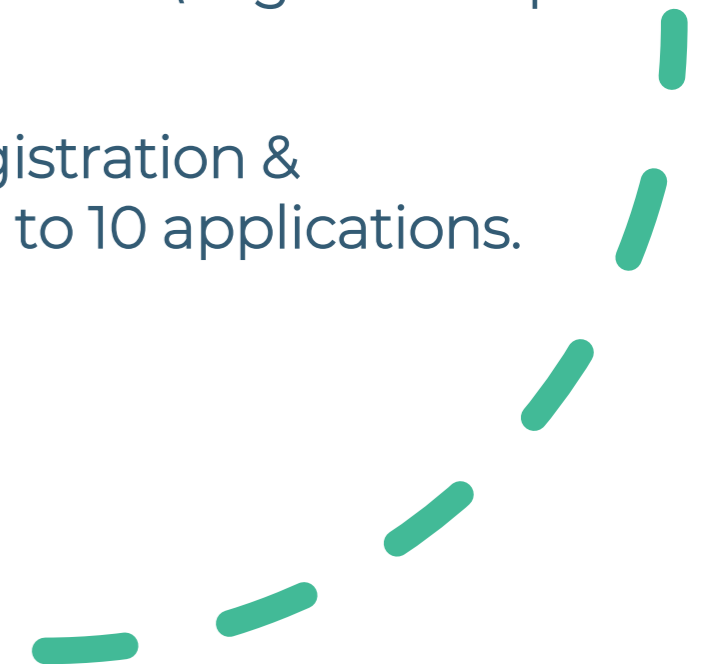

Paramount Offerings  
Identity360  
IAM Plan2

# IAM Advanced Plan – 16 weeks (Includes Standard)

- ✓ Cloud Authentication – ADFS Federated authentication transition to Password Hash Sync & Passthrough Authentication
- ✓ Password less Authentication – Zero trust approach deployment Windows Hello for Business, FIDO2, Microsoft Authenticator
- ✓ Modern Authentication – Migrating traditional authentication to Modern Authentication assessment
- ✓ Enterprise application – Supporting SAML 2.0 integration\Migration up to 10 applications
- ✓ Azure App registration – Supporting application registration & microservice integration with Oauth\OpenID for up to 10 applications.

Paramount Offerings  
Identity360  
IAM Plan3

# IAM Premium Plan - 20 weeks

(Includes Advanced plan)

- ✓ Identity protection – Azure ML sensor scans detect & senses Vulnerability & Risky account detection, Risk events investigation by anomalous sign-in, and Enforces risk-based conditional access policies.
- ✓ Identity Governance – Access certification & reviews, Entitlement Management
- ✓ Privilege Identity Management (PIM) - just-in-time access approval automation workflow process.
- ✓ Identity protection – Risk event analytics with SIEM Integrations

Paramount Offerings  
Identity360  
CIEM Plan P1

# CIEM Standard – 8 weeks

(Cloud Infrastructure Entitlement Management)

- ✓ Cloud Identity and Resource Authorization Risk Assessment (Multi cloud)
- ✓ Strength, Weakness, Opportunity, Threat(SWOT) Analysis
- ✓ Guidelines through Risk Assessment findings
- ✓ Security and Compliance Controls Assessment
- ✓ Integration strategy & Plan with Access Control, Privileged Access Management(PAM) and Identity Governance and Administration(IGA) Solutions

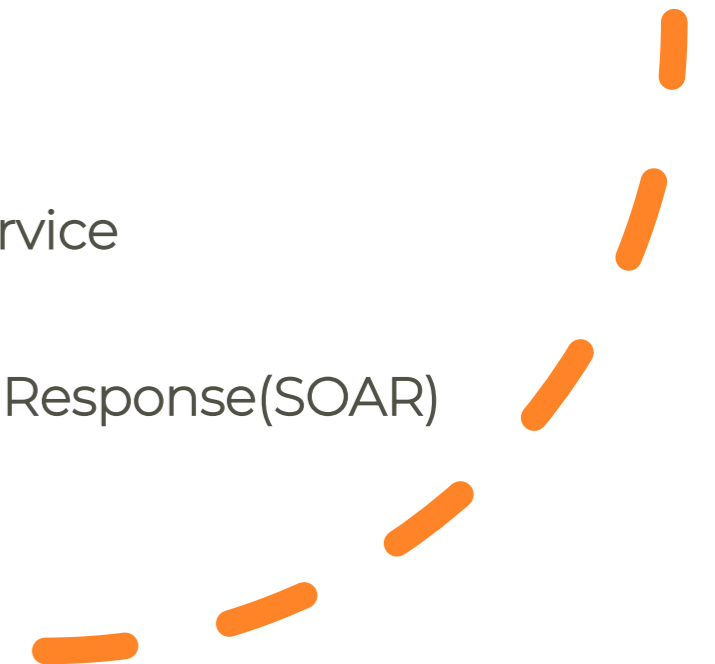

Paramount Offerings  
Identity360  
CIEM Plan 2

# CIEM – Advanced – 16 weeks

(Cloud Infrastructure Entitlement Management)  
Includes Standard Plan Benefits

- ✓ Installation and configuration of Entra Permission Management
- ✓ Use Case definition & Policy Framework
- ✓ Integration with Authentication, Privileged Identity Management (PIM)/PAM, IGA (Identity Governance) solutions
- ✓ Implementation Permission right-sizing
- ✓ Define Anomaly Detection and Remediation
- ✓ Integration strategy and Plan of Record(POR) with IT Service Management(ITSM), Security Information and Event Management(SIEM)/Security Orchestration Automated Response(SOAR) solution

Paramount Offerings  
Identity360  
EPM Plan 3

# CIEM – Premium – 20 weeks

(Cloud Infrastructure Entitlement Management)

Includes Advanced Plan Benefits

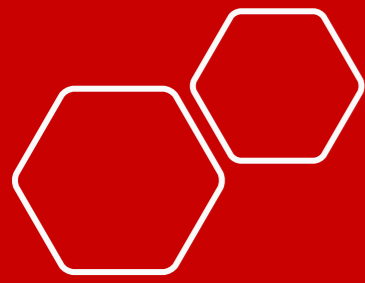

- ✓ Integration with ITSM, SEIM/SOAR solutions
- ✓ Implement Anomaly Detection and Remediation
- ✓ Define Responsibility Model
- ✓ Enhance & Optimize Permission Management Business Rules and Workflows
- ✓ Define Infrastructure Custom Security and Compliance Controls
- ✓ Automation enablement for permission management.

Paramount Offerings  
Identity360  
DID – Plan 2

# Verified ID – Advanced

- ✓ Verified ID Domain Registration
- ✓ Faster Remote Onboarding - Validate identity information for trustworthy self-service enrollment and reduced time-to-hire.
- ✓ Verify access - Quickly verify an individual's credentials and status to grant least-privilege access with confidence.
- ✓ Verifiable credentials – API integration with apps hosted in on-prem or any third-party cloud.
- ✓ Integration with Open standards
- ✓ Digital wallet automation process & procedure
