

Microsoft 365 Security Offer

Is protecting your Microsoft 365 user's identities and data a top priority for you?

What else can you do to help protect your corporate documents, intellectual property and user identities from being leaked to cyber criminals?

What is a Microsoft 365 Security Briefing?

Patriot's M365 Security briefings is a 60-minute briefing where we address the specific threats your organization faces such as spear phishing, user credential theft, data breaches, protecting privileged identities and more.

What is a Roadmap Session?

The Roadmap session is a one-on-one interactive meeting where Patriot's Microsoft architects assist you in envisioning your Microsoft investment and how to maximize that investment.

If you would like to learn more about these services and how you can protect your Microsoft 365 user identities and data for your company contact us for a complimentary 60-minute Security Briefing. The threats and challenges we will address include:

Identifying Data Breaches

Protecting Privileged Identities

Discovering Shadow IT

Protection Against Privileged Escalation

Protecting Mobile Assets

Post Breach Detection

Employee Exits

Preventing Sensitive Files from being leaked

What You Get

1. A 60-Minute Microsoft 365 Security Briefing
 2. A 60-Minute Microsoft 365 Roadmap session
- The Security Briefings will educate the customer on the threats they face, and will highlight how Microsoft can be used to mitigate them
 - Patriot's Roadmap Service will have customers interacting real time with a Microsoft Security Architect to review how you can maximize your MSFT investment. At the end of the session, the customer will be given the final Roadmap to keep as a guide.

To arrange your Microsoft Security Briefing, you can call us at 844-560-4630 or email Secure365@patriotconsultingtech.com
