Microsoft

CONNECTION ASSET DISCOVERY AND OPTIMIZATION STANDARD ENGAGEMENT (ADO)

Inventory data alone does not always deliver a clear picture. You need guidance to optimize technology investments, reduce risk, and plan for the future. The Connection ADO Engagement delivers the insights and recommendations you need to generate actionable and measurable results.

Connection Asset Discovery Optimization

Our Five Assessment Offerings:

– **Server Optimization Assessment:**
Shrink your hardware footprint, achieve right-size licensing, and gain insights into creating a server modernization plan that fits your business.

– **Cloud Enablement Assessment:**
Get data-driven insights on your migration strategy, total operating costs, and your technology benefits.

– **Threat and Opportunity Advisor:**
Receive comprehensive analysis and clear recommendations to reduce cyber risk, minimize attack surfaces, and improve overall security posture.

– **Azure Virtual Desktop:**
An overview of your existing virtual and client infrastructure that provides recommendations on how to optimize via Azure Virtual Desktop.

– **Modern Work:**
Insights into your network security vulnerabilities and how well modern workplace tools—such as Microsoft 365—are being utilized.

Security

The security of your sensitive data is of the utmost importance. To meet your expectations, we utilize Block 64—a modern and highly secure toolset.

- Block 64 achieves SOC 2 Type II Certification
  – All data is destroyed 90 days after term of enrollment
- Data privacy through GDPR, PII, and Block 64
  – End-to-end encryption
  – Data destruction certificates are available
- Security FAQ
