

PCG student enrollment system

Comprehensive service for applications processing

ABOUT PCG Academia:

PCG Academia combines the potential of a global consulting company with the local experience of experts in the field of education. We support the educational and scientific mission of the university by providing solutions within two independent IT ecosystems: Educloud and Sciencecloud. We work with the best universities in Poland – from large public universities, such as the Jagiellonian University, to top non-public universities, such as the Kozminski University.

Benefits for:

Enrollment office

- Simple calculation of ranking lists, process automation

Enrollment system is cloud-based service on Microsoft Azure Cloud which allows you to save CAPEX and provide easy integration with other PCG Educloud and Sciencecloud modules which are provided as SaaS in Microsoft Azure Cloud.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
