Microsoft Viva Insights

- After hours channel message hours
- After hours collaboration
- After hours email hours
- After hours in calls
- After hours meeting hours

VIVA Insight- personal + manager WPA setup.

Approach & Deliverables

Strategy Briefing

- In this approach, we start with mapping **business use case** and **pain points** with **technological solutions**
- Briefing will be done with various customer **stakeholders**, understanding their pain points and **business goals**
- This stage also gives idea about **"art-of-possibilities"** to transpire new thoughts

Architectural Design Session

- Once map , we will double Click on each of **technological solutions** with Viva **Building block**
- Based on the existing Heat map/tech-stack, our team of architects will perform **whiteboarding** with customer's tech team.
- These sessions are two-way interactive session & end goal is discovery and produce best **possible architecture** to support outcomes of strategy briefing.

Objectives

- HR leaders can observe the after-work hours mail flow
- HR leaders can figure out the bottlenecks for extended work hours
- Predict the burnout among the team through understanding of long calls after work hours
