

Grow Your Business with **PEAKUP**

The future of Modern Communications.

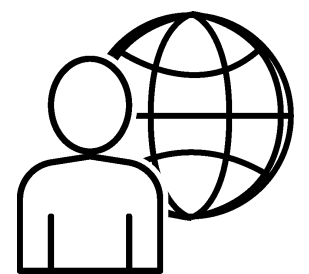

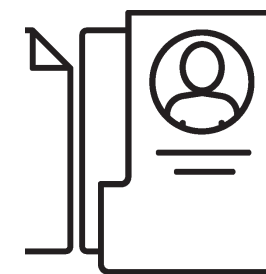

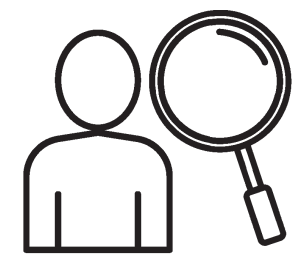

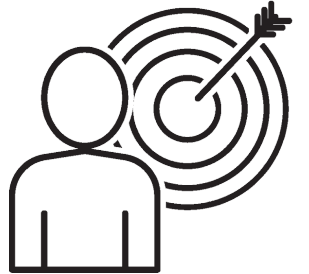

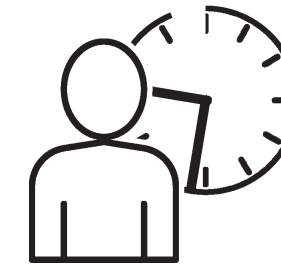

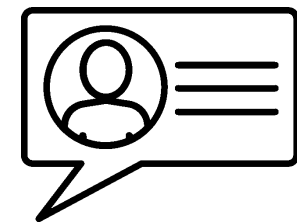

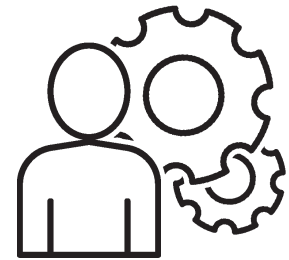

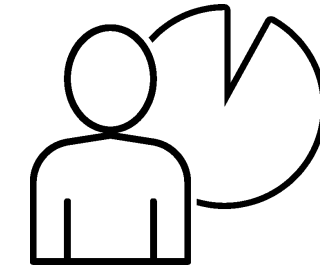

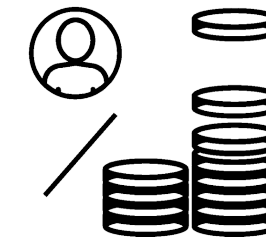

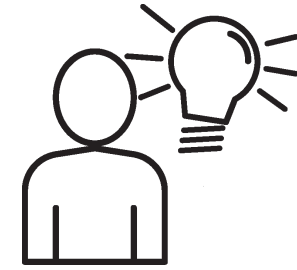

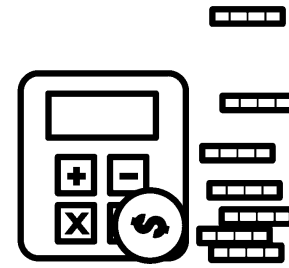

What is the benefits of Modern Workplace for your Business?

Modern Workplace is more than Finance.

Focus on Business Value

The traditional workplace

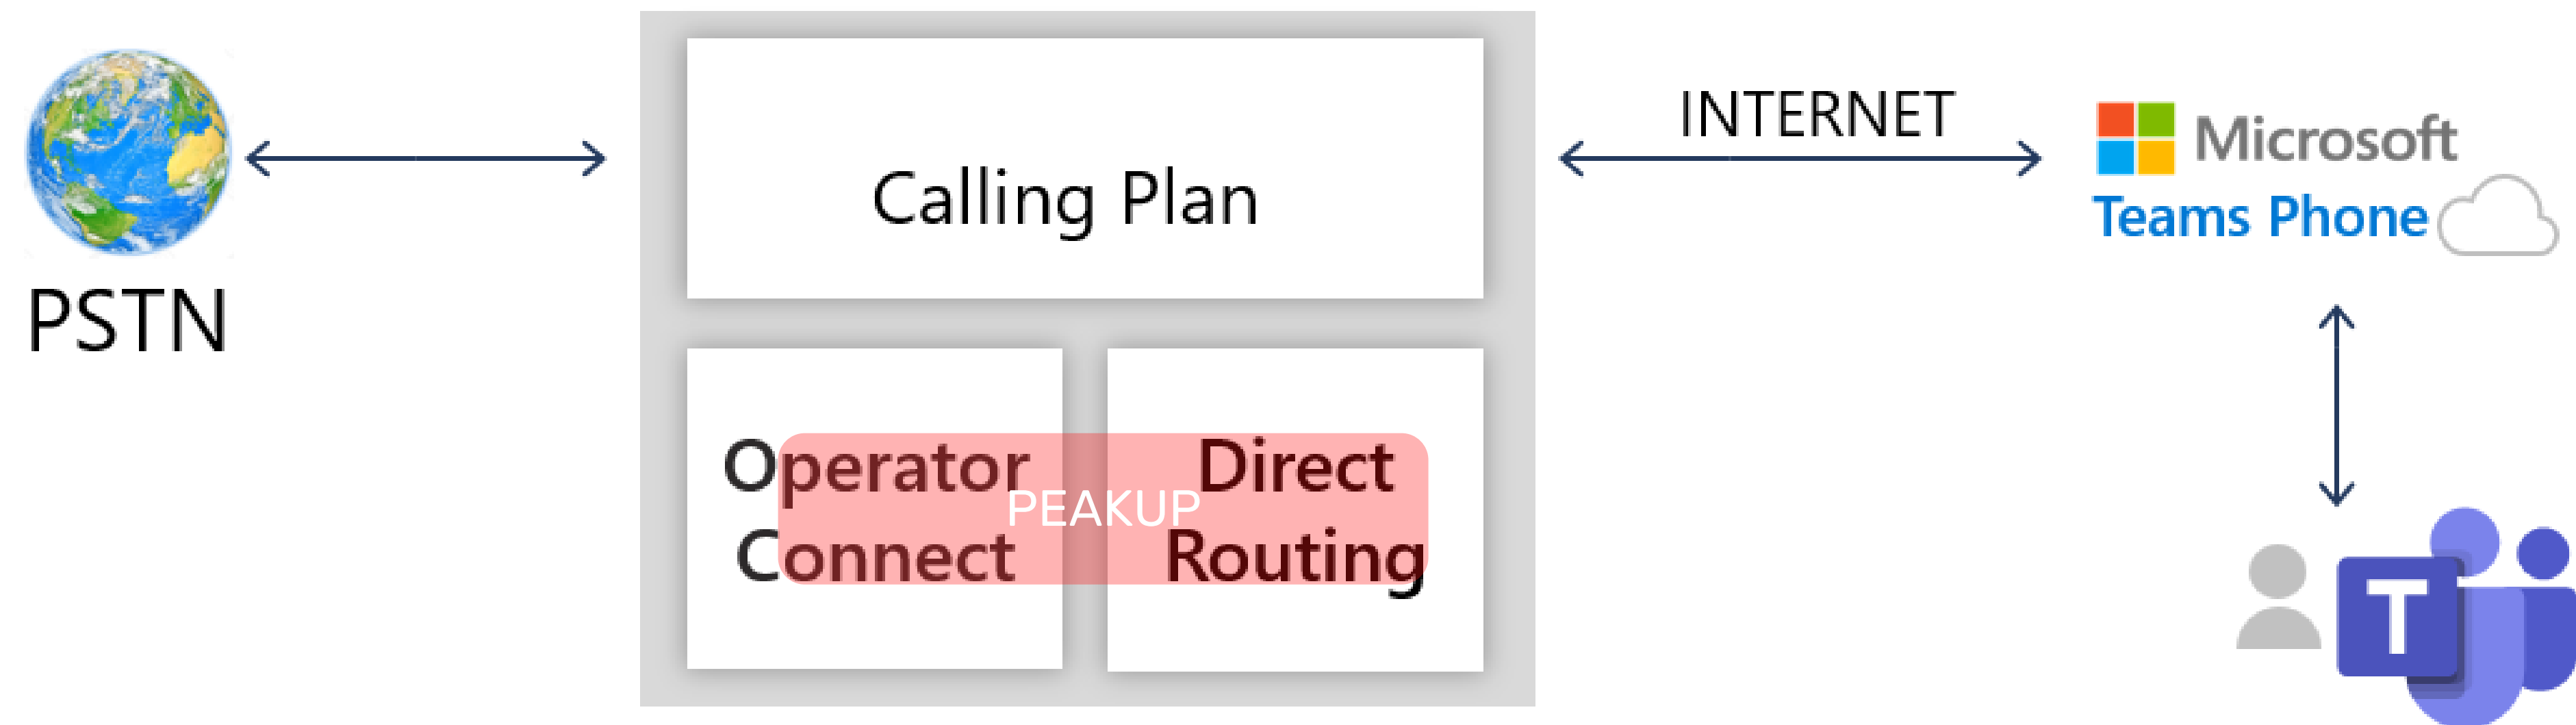

VS.

The modern workplace

Remote employees

Employees need to communicate from any worksite, on any device

Evolving calling scenarios

Organizations require flexible phone capabilities—while keeping classic calling features

Pressure on IT budget & resources

Modern solutions must be cost-effective and easy to manage

Microsoft Teams as your Phone

Access and filter your call history and voicemail

Access your speed dial, contacts, and voicemail summaries in one place

Access your contacts

Make a call with a phone number or name

Menu in client for calling functionality

Dial pad to dial phone numbers

Your phone number displayed here

Manage call and device settings

The screenshot shows the Microsoft Teams Phone interface. At the top, there is a search bar with the text "Search or type a command" and a user profile for "Northwind Traders". Below this, the "Calls" tab is active, showing a "Recent" list of calls. The list includes entries for "Hillary Reyes", "Will, Kayo, Eric, +2", "Keiko Tanaka", "Eric Ishida", "+1 (509) 670-0594", "Design sync", "Keiko Tanaka", "Eric Ishida", "Serena Davis", "Charlotte de Crum", "Kadji Bell", and "Keiko Tanaka". A context menu is open over the "+1 (509) 670-0594" entry, showing options: "Add to speed dial", "Block number", "Edit", and "Remove". To the right of the call list is a "Speed dial" section with contact cards for "Hillary R.", "Reta T.", "Edwin S.", "Miguel S.", "Marie B.", "Bruno Z.", and "Erika F.". On the left side, there is a vertical navigation menu with icons for Activity, Chat, Teams, Calendar, Calls, Files, and a menu icon. Below the navigation menu is a dial pad with numbers 1-9, *, 0, and #, and a "Call" button. At the bottom, there is a "Parked calls" section and a status bar showing "Forwarding off" and "Jabra Biz 2400".

The logo for PEAKUP features the word "PEAKUP" in a bold, orange, sans-serif font. The text is centered within a white rectangular box that is superimposed on a large red circle with a vertical gradient. A black line with a dot at its end extends from the left side of the white box to the text "Worldwide Connectivity". Another black line with a dot at its end extends from the top right of the white box to the text "Modern Communication".

The logo for PEAKUP is centered in the image. It consists of the word "PEAKUP" in a bold, orange, sans-serif font. The text is overlaid on a large red circle that has a white-to-red gradient. A white horizontal bar is positioned behind the text, making it stand out. The logo is connected to four different text blocks by black lines with small circular endpoints: one to the top-left, one to the top-right, one to the bottom-right, and one to the bottom-left.

What is the benefits of PEAKUP as a Direct Routing Provider?

DID Management

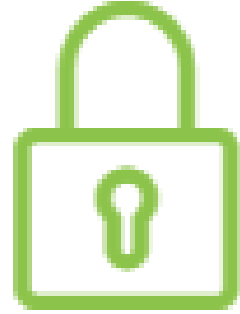

PEAKUP handles every aspect of number management, making it easier for you to request, assign and monitor numbers.

PEAKUP supports the management of international carriers and multiple carrier side SIP trunks making international DID management simple.

Call Termination

PEAKUP can connect with multiple carriage providers, delivering inbuilt carriage redundancy and scalability for your voice offering.

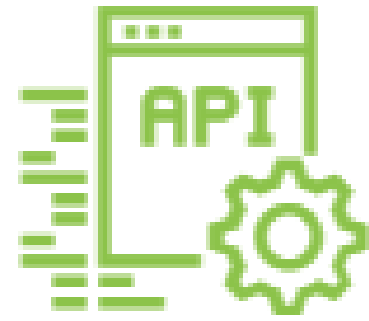

Security & Compliance

Your data is Encrypted at rest. PEAKUP's stringent security protocols mean your data – and your customers' – is always safe, private, and governed by you.

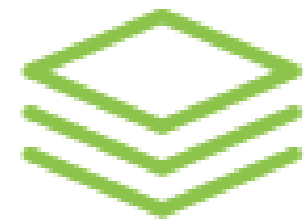

Billing

Simplify billing with PEAKUP's tri-tiered system for wholesalers, partners and customers.

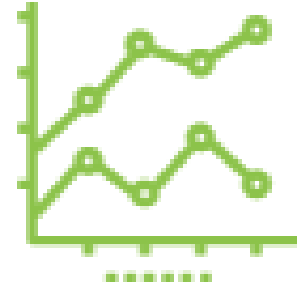

API & Triggers

PEAKUP's extensive API means you can seamlessly integrate it with your BSS/OSS systems. You can even develop custom applications to elevate the platform's standard capabilities.

Integration With Leading Systems

With PEAKUP's API documented and defined in Swagger, creating fully integrated workflows has never been simpler.

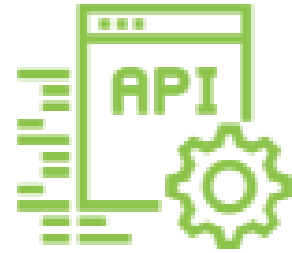

Reporting

PEAKUP pools and generates CDR records from multiple carriers, enabling detailed reports to be automatically generated.

Orchestration

PEAKUP was originally built for Microsoft Teams Calling. Now, it's evolved to become an all-in-one way to orchestrate your telco products and services.

Scalable Architecture

PEAKUP is built on Azure and can also run on other cloud platforms or bare metal server infrastructure. The platform is live in 16 regions making it the first fully global Telco as a Service offering.
