Build Your First Enterprise Copilot Agent in 2 Weeks

A focused proof of concept using Microsoft Copilot Studio for a real business scenario with low-level complexity

PENTHARA
TECHNOLOGIES

Why This Matters

Turn AI Potential into Tangible Business Impact

Validate the value of AI in your workflow with minimal risk

Solve a specific challenge using conversational AI

Gain internal confidence for broader Copilot investments

Fast-track AI adoption with a clear, business-aligned use case

What We'll Deliver

From Idea to Live Copilot Agent — in Just 2 Weeks

Stage - 1
Discovery workshop to
define your Copilot scenario

Stage - 3
Integration with Microsoft
365 (e.g., Teams, SharePoint)

Stage - 2
Configuration of topics,
triggers, and connectors

Stage - 4
End-to-end deployment
of a working agent
