Microsoft Purview DLP Policy Implementation - 4 Weeks

Safeguard your organization's sensitive data with Microsoft Purview by implementing DLP policies that prevent accidental or unauthorized sharing across Microsoft 365 and endpoints.

PENTHARA
TECHNOLOGIES

Why This Matters?

Prevent **Data Leaks** Before They Happen

Stop sensitive data from leaving your organization

Enforce compliance across email, Teams & document sharing

Gain visibility into data movement & risky behaviors

Meet industry & regulatory data protection standards

What We'll Deliver?

Comprehensive **DLP Implementation** across **Microsoft 365**

Assessment of your data handling & sharing patterns

Configuration of policy rules, conditions & alerts in Microsoft Purview

Documentation, testing, & admin enablement for policy management

Design of DLP policies for Exchange, SharePoint, Teams & endpoints

Integration with Microsoft Defender for Endpoint
