

Desk Reservation App

Solution Overview

- Application built for reservation and management of desks in the office
- Build in Power Apps free integrated in Teams
- Can be tailored to specific needs of each customer
- Can be built in less than one month

How it works – User experience

Step 1: The users enters the app and can see in one single interface all the reservations made by him/her

Step 2: Make a new reservation (desk, conference room, phone booth, etc)

How it works – User experience

Step 3: Define area where you want to make the reservation

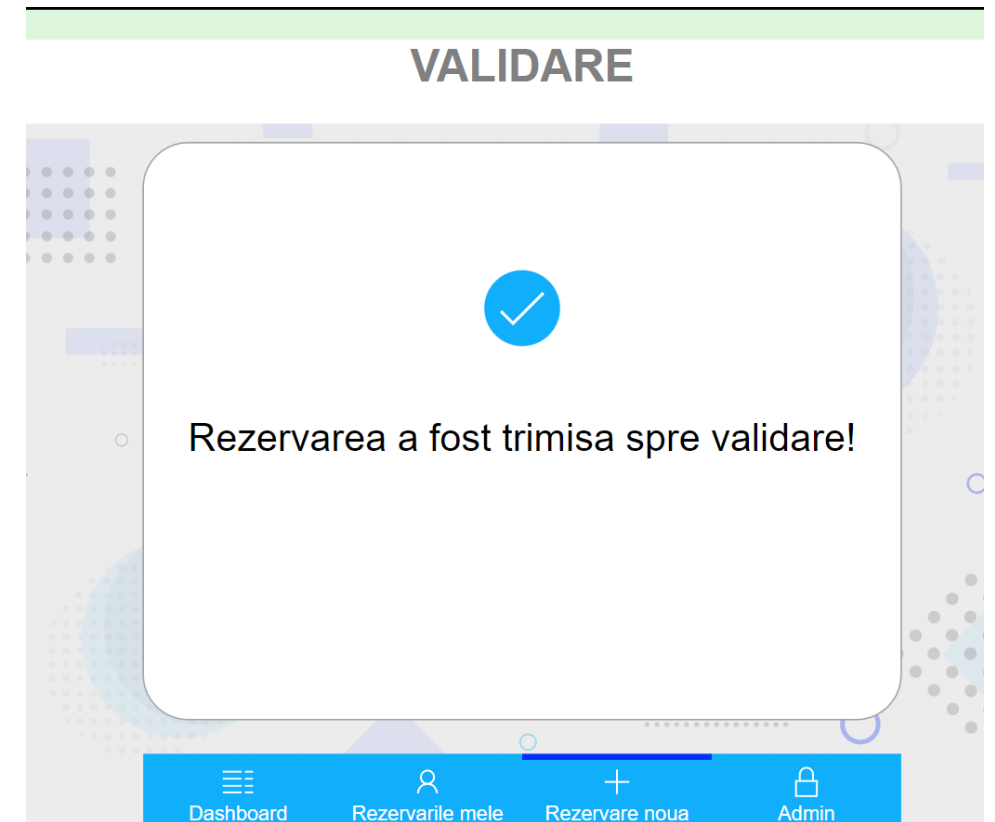

Step 4: Select a specific Desk

How it works – User experience

Step 5: Confirm the reservation. The user will receive a notification also on email

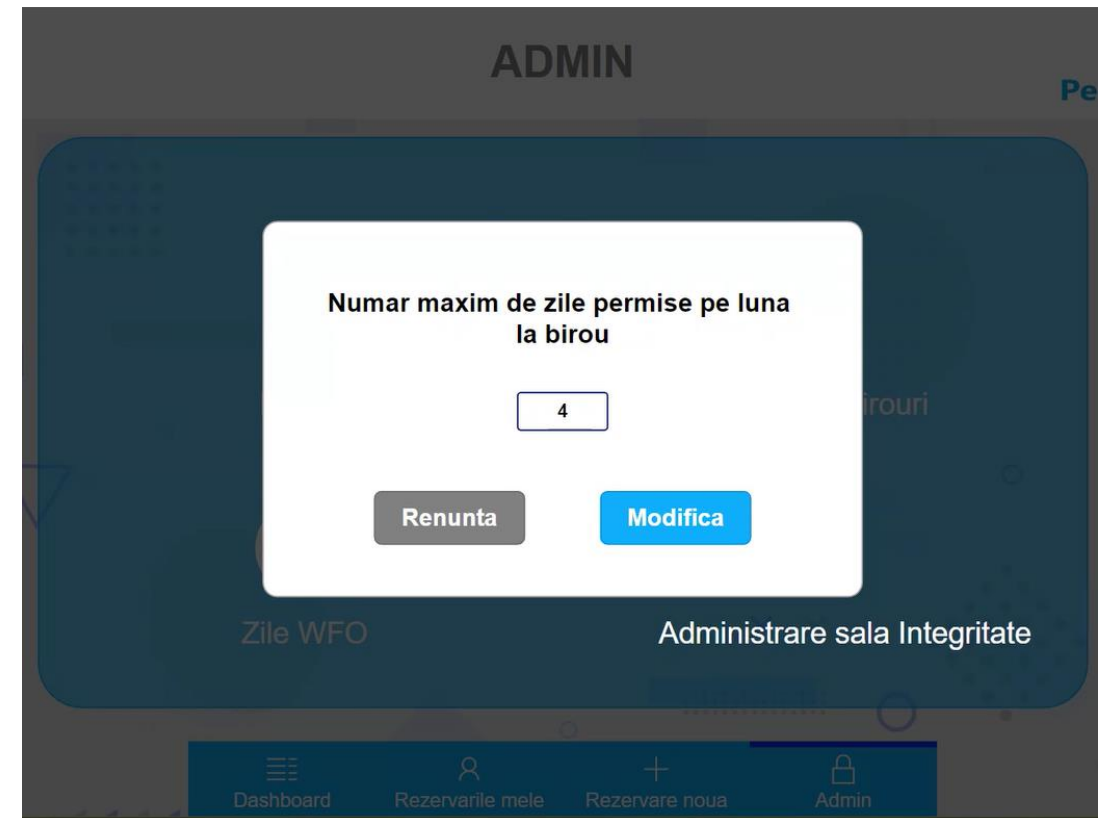

How it works - Administration

Step 7: One simple interface for Admin

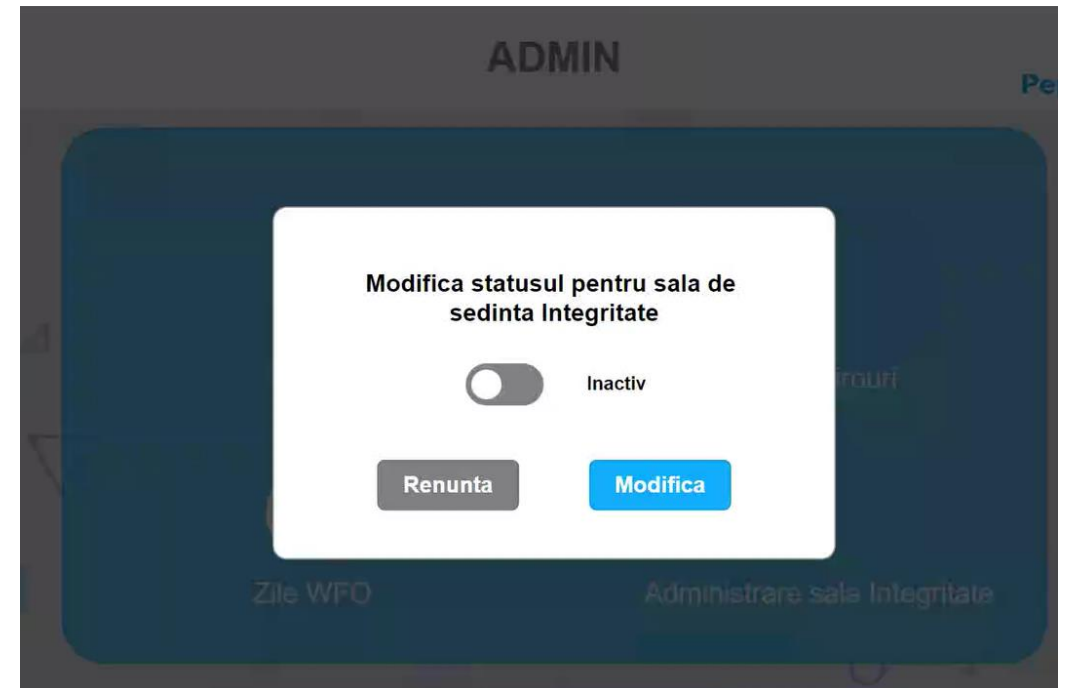

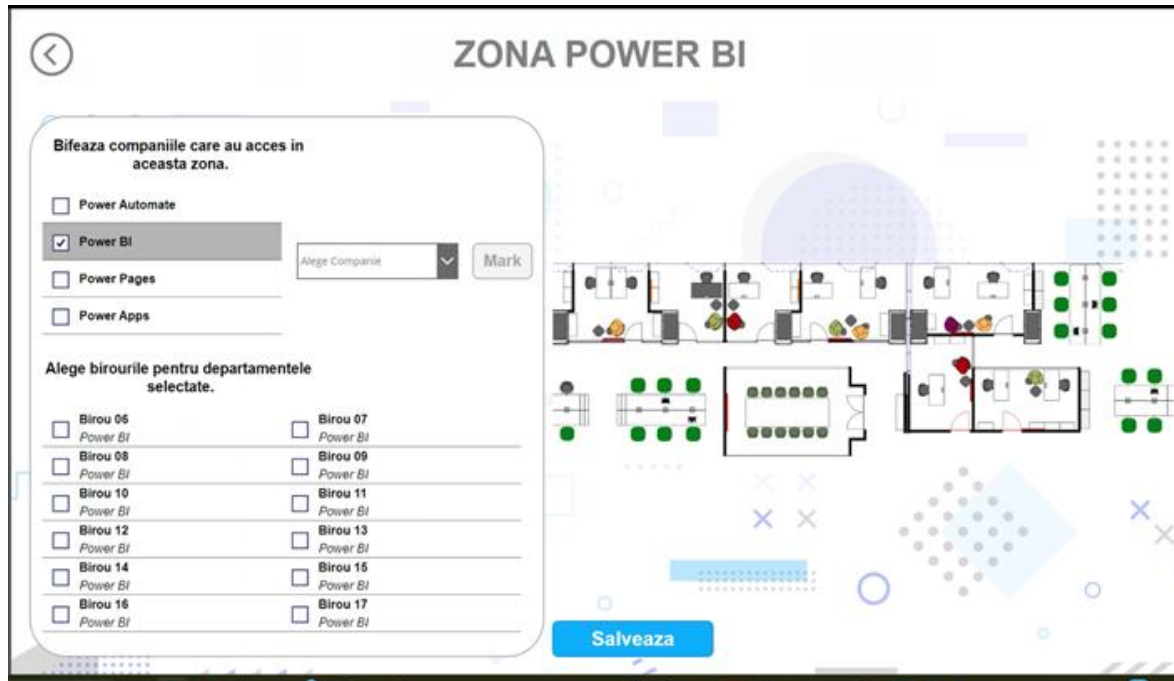

Step 7: The admin can select how many days a user can work from the office

How it works - Administration

Step 8: The admin can easily rename / delete / add new desks

Reporting

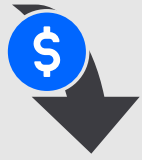

Selected people will see in real time the activity of users and have real time reporting

- Easy to see and track the reservations of desks
- Automatic notification
- Daily and weekly reports
- Possibility to scroll down to see the results

The screenshot displays an ADMIN interface with a 'Raport' (Report) window. The window contains a table with columns for 'Angajat' (Employee), 'Companie' (Company), 'Data start' (Start Date), 'Data stop' (End Date), and 'Tip birou' (Desk Type). The table lists various users and their activities, such as 'Ana Maria Trifescu' using 'Power BI' and 'Power Platform' on 07 februarie and 03 februarie, and 'Daniel Toma' using 'Power Apps' on 03 februarie and 02 februarie. The 'Tip birou' column shows desk types like 'Birou 09', 'Spirit de echipa', 'Responsabilitate', 'Birou 66', 'Pasiune', 'Birou 41', 'Birou 56', 'Birou 25', and 'Inovatie'. A 'Descarca CSV' button is visible in the top right corner of the report window. The bottom navigation bar includes 'Dashboard', 'Rezervarile mele', 'Rezervare noua', and 'Admin'.

Angajat	Companie	Data start	Data stop	Tip birou
Ana Maria Trifescu	Power BI	07 februarie 08:30	07 februarie 17:00	Birou 09
Ana Maria Trifescu	Power Platform	07 februarie 08:30	07 februarie 11:00	Spirit de echipa
Ana Maria Trifescu	Power Platform	03 februarie 08:30	03 februarie 10:00	Responsabilitate
Ana Maria Trifescu	Power Automate	03 februarie 08:30	03 februarie 10:00	Birou 66
Ana Maria Trifescu	Power Platform	03 februarie 08:30	03 februarie 10:00	Pasiune
Ana Maria Trifescu	Power Apps	03 februarie 08:30	03 februarie 17:00	Birou 41
Ana Maria Trifescu	Power Automate	03 februarie 08:30	03 februarie 17:00	Birou 56
Daniel Toma	Power Apps	03 februarie 08:30	03 februarie 17:00	Birou 25
Daniel Toma	Power Apps	02 februarie 08:30	02 februarie 17:00	Birou 25
Ana Maria Trifescu	Power Automate	02 februarie 08:30	02 februarie 17:00	Birou 56
Ionut Dragnea	Power Platform	01 februarie 11:30	01 februarie 17:00	Inovatie

The business value of **Power Platform**

Reduce total cost of ownership

Minimize internal development effort and support while improving compliance and security and expanding the pool of available development talent.

Increase performance and efficiency

Increase business process innovation with applications that deliver performance improvement, operational efficiencies, direct cost savings and mitigate risks.

Faster time to value

Build applications much faster to respond to situations and deliver business innovation in a reduced timescale.

Thank You!
