Power Up with Microsoft 365 Copilot from Performance

Performance Technologies offers a Microsoft 365 Copilot Readiness Workshop to prepare your organization for Copilot deployment. The workshop covers everything from understanding Copilot's features to assessing your technical setup for smooth integration.

Comprehensive Preparation:

We ensure your team understands Copilot's capabilities and confirm your technical prerequisites, like licensing and compliance, are in place and ready to go.

Data Mapping & Security:

We help identify data sources, perform gap analysis, and ensure compliance. A structured data classification plan will prioritize sensitive information protection.

Seamless Integration:

We assist in aligning your infrastructure for Copilot integration, optimizing productivity, and ensuring robust security.

Why choose Performance for Microsoft 365 Copilot

With a team of 60+ certified engineers and a wealth of experience delivering projects across various industries, we are committed to helping you harness the full potential of Microsoft 365.

Unparalleled Expertise:

Our expertise and experience in delivering IT solutions for over 30 years. We have the knowledge and skills to handle any project, no matter the size, complexity or industry.

Most qualified Microsoft partner:

Our certification and recognition as the most decorated Microsoft Partner in Greece with multiple designations and specializations. We have proven our excellence and quality in delivering Microsoft solutions.

We focus on you:

Customer-centric focus on your goals and challenges. We will listen to your needs, understand your pain points and deliver solutions that meet your expectations and more.
