

Persistent Connected Copilot Solution For SAP

Persistent Agentic Connected Copilot SAP Agent

Harnessing Microsoft Teams as Business Interface to Enhance Business Productivity

Pivotal Features

- An AI-powered autonomous agent that interacts with SAP systems via APIs.
- Task automation (e.g., invoice processing, procurement).
- Handling all authentication & role-based authorization related aspects programmatically

Benefits

- Decision-making based on real-time data.
- Conversational interface for users (e.g., chatbots or voice assistants).
- Intelligent insights from SAP data

Azure OpenAI | Microsoft Copilot Studio | Serverless (Azure Functions) | Low code/No code (Power Automate)

Harnessing Custom Copilot to Enhance Business Productivity

Integrate various business & IT applications using Microsoft Copilot Studio

Persistent Connected Copilot Factory: Building connected copilot plugins at scale to integrate with & gain insight from any renowned business & enterprise IT apps harnessing **Persistent Connected Copilot Solution on-demand basis within few weeks**

Azure OpenAI | Microsoft Copilot Studio | Serverless (Azure Functions) | Low code/No code (Power Automate) | M365

Connected Copilot plugins boosts the productivity of business users by at least 30%

Traditional way of integrations is costly & resource intensive

- Uses license-based third-party integration platforms
- Requires a team of skilled developers

Gen AI-based Integration Using Microsoft Copilot

- Saves license costs drastically as **Copilot Studio is org-based license (~ \$200 per month)**
- Easy to use & more productive for business end users

The screenshot displays the 'Connected Copilot Platform' interface. At the top, there's a header with 'Connected Copilot Platform', 'Chat', and 'Shared'. Below this, a chat input field contains the text: 'Give me summary of all the Supplier Invoices from SAP where SupplierInvoice contains 5100000081'. The response from the platform is an 'Invoice Summary' for 'Company Name: BestRun US', 'Invoice number: 5100000081', 'Purchase order Number: 4500000058', 'Fiscal Year: 2016', and 'Total Amount: 423898.02 USD'. Below the summary is a table titled 'Topic: List items' with columns: Item No, Purchase order item, Material, Material Description, Quantity, Net Price, and Total Amount. The table lists 9 items, all of which are 'MTX Rear Light Attachment Kit' with a quantity of 98.

Item No	Purchase order item	Material	Material Description	Quantity	Net Price	Total Amount
1	1	MZ-TG-G09	MTX Rear Light Attachment Kit	98	1730.19	169558.62
2	2	MZ-TG-G09	MTX Rear Light Attachment Kit	98	86.51	8477.98
3	3	MZ-TG-G09	MTX Rear Light Attachment Kit	98	86.51	8477.98
4	4	MZ-TG-G09	MTX Rear Light Attachment Kit	196	108.14	21195.44
5	5	MZ-TG-G09	MTX Rear Light Attachment Kit	98	346.04	33911.92
6	6	MZ-TG-G09	MTX Rear Light Attachment Kit	98	216.27	21194.46
7	7	MZ-TG-G09	MTX Rear Light Attachment Kit	98	519.06	50867.88
8	8	MZ-TG-G09	MTX Rear Light Attachment Kit	98	259.53	25433.94
9	9	MZ-TG-G09	MTX Rear Light Attachment Kit	98	865.10	84779.80
