

Power BI Accelerator

Unlock the power of your data with Simpson Associates Power BI Accelerator

Power BI Accelerator

If you are an organisation looking to kick start your journey with Microsoft Power BI, Power BI Accelerator from Phoenix and Simpson Associates will get you up and running fast.

You may well have data stored in on-premise data sources or cloud based systems such as Microsoft Dynamics CRM, Salesforce, Google Analytics, Azure SQL server. Power BI allows you to quickly access the data and deliver insights for your business.

Our packaged offer includes everything you need to get you started, enabling your organisation to have a working Power BI solution within a month.

Whatever your requirements and budget we have a solution to meet your needs. Each level contains the essentials to get you up and running with Power BI in a short time scale, including a full handover with knowledge share on completion.

Training is available as an option, plus ongoing support can be included in the Custom level, with options ranging from traditional support models right the way through to complete Software-as-a-Service delivery of your data requirements.
