

WINDOWS 365 PILOT

WHAT IS WINDOWS 365?

Windows 365 combines the power and security of the Microsoft cloud, with the versatility and simplicity of a PC. From contractors and interns, to volunteers and temporary workers, Windows 365 enables a variety of scenarios for the new world of work.

Windows 365 is a complete software-as-a-service (SaaS) solution that streams a personalised, secure, and scalable Windows experience to any device. It's designed for simplicity.

KEY BENEFITS

▶ YOUR WINDOWS IN THE CLOUD

Securely stream your Windows experience – including your personalised apps, content, and settings – from the Microsoft cloud to any device with your Windows 365 Cloud PC.

▶ ENABLE FLEXIBILITY FOR HYBRID WORK

Empower employees with personalised Cloud PCs and a highly secure Windows experience anywhere they work, even on personal devices.

▶ SIMPLIFY MANAGEMENT

Administer Windows 365 in Microsoft Endpoint Manager alongside the rest of your estate or access through windows365.microsoft.com.

▶ CUSTOMISE TO MEET YOUR NEEDS

Get a complete cloud-based service with flexible purchasing options and predictable per-user monthly pricing.

▶ ENSURE BUSINESS CONTINUITY

Improve organisational strength and versatility with an integrated Windows experience streamed from the cloud to any device.

▶ SCALE AS NEEDED

Meet the needs of your evolving workforce with a wide range of easy-to-configure computing options.

▶ SIMPLIFY WITHOUT SACRIFICING PERFORMANCE AND SECURITY

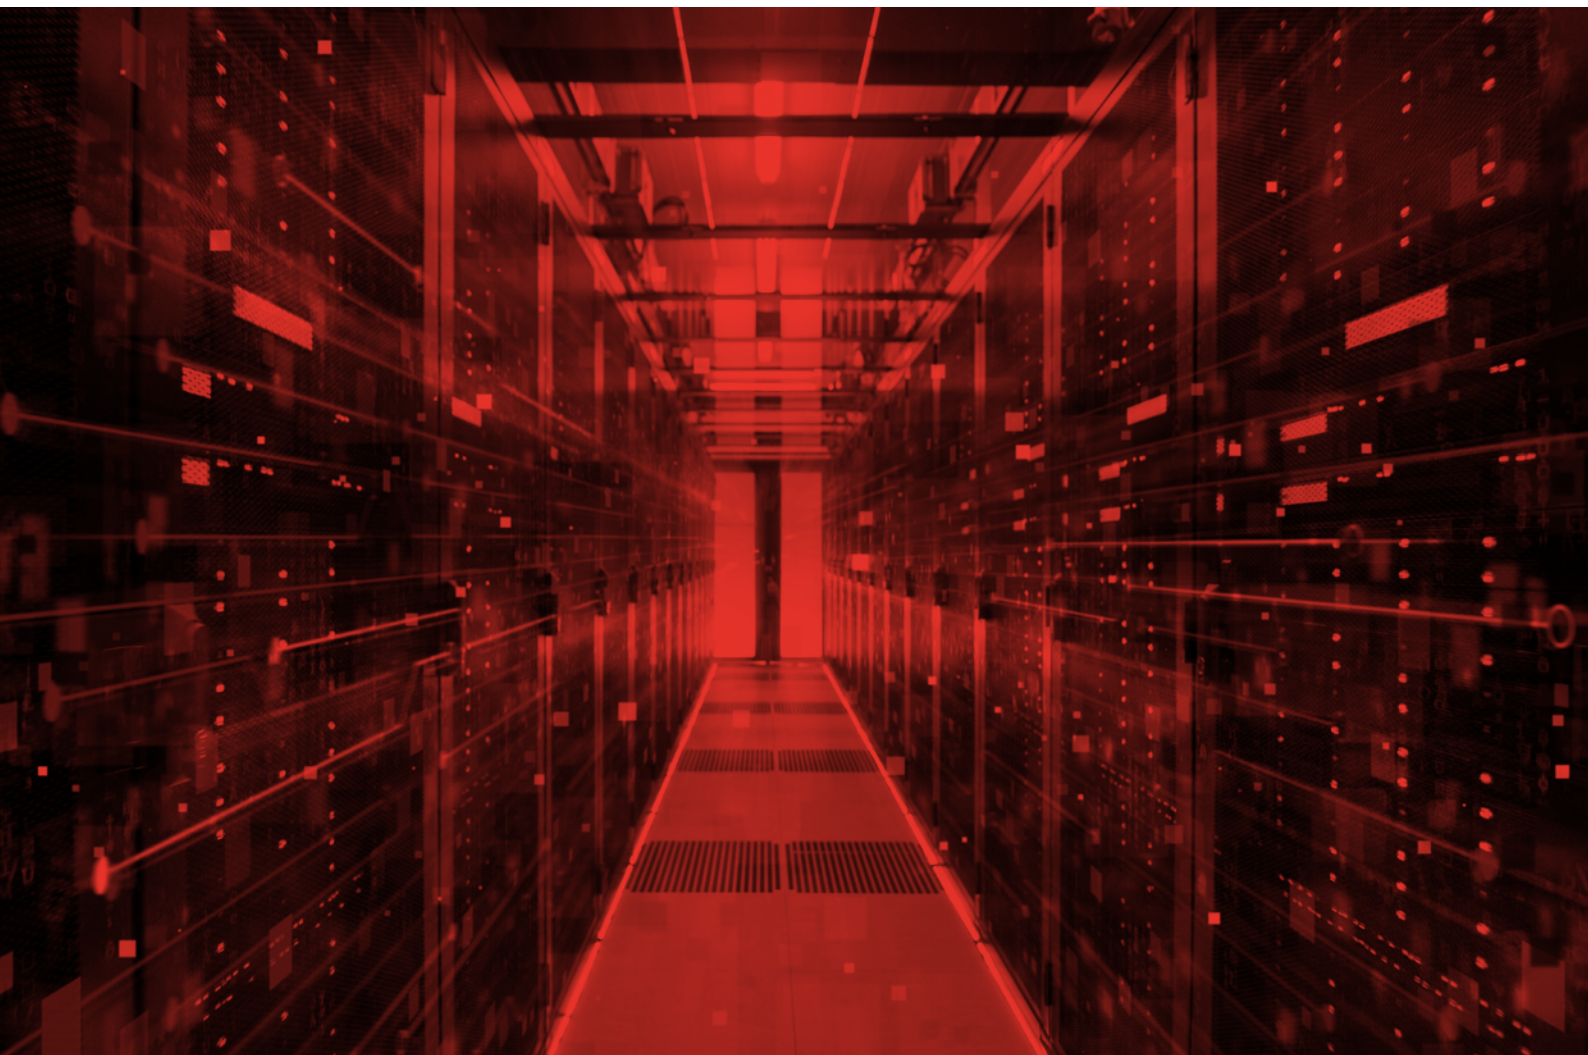

Windows 365 is secure by design, leveraging the power of the cloud and the principles of zero trust. Meet industry-specific requirements with centralised, cloud-based operations and security controls that work seamlessly with leading security, identity, and compliance solutions from Microsoft.

▶ EASILY DEPLOY AND MANAGE

Administer and help secure all your endpoints, physical and virtual, in a unified console with Microsoft Endpoint Manager.

▶ PROTECT YOUR DATA

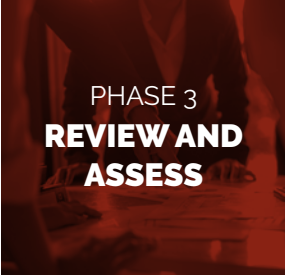

Mitigate risk and data leaks by centralising data and access in the cloud, not on devices.

HOW PHOENIX SUPPORTS YOU WITH WINDOWS 365

Our Modernise Endpoint engagement is a five-day pilot that helps your organisation to assess the value of Windows 365 and the benefits of adoption for your end-users. With a three-phase approach, it reinforces the importance of the endpoint as the hub for both users and IT.

This enables your organisation to realise the full value of Microsoft 365, and the endpoint modernisation tools needed to deploy and manage mobile, desktop, and virtual endpoints, while allowing secure access to corporate resources from anywhere.

 <p>PHASE 1 DISCUSS AND DISCOVER</p>	<ul style="list-style-type: none">▶ Project drivers▶ Licensing▶ Windows 365 options	<ul style="list-style-type: none">▶ Pre-requisites▶ Pilot users and personas
 <p>PHASE 2 DESIGN AND DELIVER</p>	<ul style="list-style-type: none">▶ Create OPNC▶ Create M365 Groups▶ Create provisioning policy▶ Security baselines	<ul style="list-style-type: none">▶ Conditional Access policies▶ App assignment▶ Knowledge transfer
 <p>PHASE 3 REVIEW AND ASSESS</p>	<ul style="list-style-type: none">▶ Readiness report▶ Findings summary▶ Next steps	

	<p>Windows 365 Cloud PC relies on Azure to deliver a reliable, scalable, and secure solution. Improve your organisation's strength and versatility with an integrated Windows experience streamed from Azure to any device, anywhere. It's designed for simplicity – no prior virtual desktop infrastructure (VDI) expertise is required.</p>
