

Power Apps Workshop – Your App

– 3 days Workshop

PlanB.

In our 3-day workshop, you will develop your first app together with 2 professional trainers. You will analyze your requirements, create a solution architecture and implement it in the Power Platform. You will work in small groups of 2-3 people to ensure maximum learning success.

WHAT YOU CAN EXPECT

Clear vision for your app.

- Identify the specific needs of your department and create a scalable solution architecture.

Hands-on app development.

- Create a powerful Power App with intuitive user interfaces, automated processes and a well-thought-out database.

Seamless integration into your existing systems.

- Use the integration options of Microsoft 365 to seamlessly integrate your app into your existing working environment.

WORKSHOP CONTENT

Day 1: Introduction and overview

- Introduction to the Power Platform with a focus on Power Apps, Power Automate and solution architectures
- Development of a common understanding of the app requirements
- Structuring the requirements and defining the necessary processes, user interfaces and architecture
- Presentation of the draft solutions in working groups

Day 2: Creation of a Power App

- Creating a Power Platform solution
- Structure and organization of the database
- Development of the app with:
 - User interfaces (screens)
 - Functions for data display and storage
 - User roles and digital processes

Day 2+3: Development of the app and fine-tuning

- Implementation and configuration of the app
- Connection to various data sources
- Configuration of user rights and roles
- Introduction to Application Lifecycle Management (ALM)

Day 3: Integration and conclusion

- Integration options for the app in various tools of the Microsoft 365 landscape (e.g. Teams, SharePoint, Outlook)
- Provision and publication of the app
- Final presentation of the work results

At the end of the workshop, you will be able to:

- Develop your individual business apps that are specifically tailored to your needs.
- Efficiently transform your requirements into digital solutions on the Microsoft Power Platform.
- Seamlessly integrate your app into your Microsoft 365 landscape to optimize your business processes.

Register now for our tried-and-tested workshop and unleash the potential of the Microsoft Power Platform in your department!

Why PlanB.

Our 100% commitment to Microsoft technologies means that we can draw on decades of product experience and expert knowledge combined with the use of suitable and proven project methods and operating models.
