

Modern Desktop Pilot

Get a production-ready deployment solution.

The engagement is designed for customers who need assistance to enable rapid adoption of Windows 10 Enterprise with Office 365 ProPlus and Enterprise Mobility.

Our experts rely on **decades of product experience in all areas of Modern Workplace** and help customers design and configure their Windows 10 Enterprise, Enterprise Mobility and Office 365 ProPlus implementation and deploy up to a 500-device production pilot. This also includes process design and configuration of tools to support Windows as a Service.

PLANNING.

Plan and design the different elements of the implementation through a series of technical workshops on servicing, deployment, device management and security.

PLANNING AND DESIGN THE SOLUTION.

VALIDATION.

Implement the solution in a test environment and validate the functionality.

VALIDATE THE SOLUTION.

Modern Desktop Pilot

This at-a-glance box

- Rapid adoption of Windows 10 Enterprise, Enterprise Mobility and Office 365 ProPlus
- Implementation design and configuration
- Deployment up to a 500-device pilot
- Process design and configuration of tools to support Windows as a Service

DEPLOYING..

Implement the solution in production and deploy to a pilot up to 500 devices.

PILOT DEPLOYMENT.

"With the Modern Workplace Pilot based on M365 we offer our customers an important milestone on their way to a digital company."

- Tobias Abele, Team Lead Modern Workplace & Security, PlanB. GmbH

Intelligent platform designed for today.

Secure, flexible and with enhanced productivity features.

Intelligent Security

Always protected from advanced threats by the Intelligent Security Graph.

Simplified Updates

Always the latest productivity and security capabilities.

Flexible Management

Cloud-based self-service deployment with low cost.

Enhanced Productivity

Built-in tools and features to collaborate and work intuitive and more efficiently.

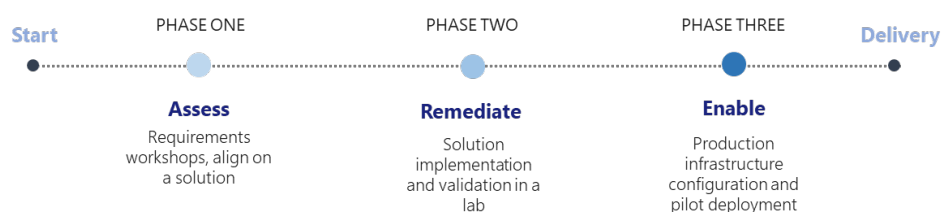

Modern Desktop Pilot

Our promise to you

Within 12 weeks we will assist You with the adoption of Windows 10 and achieve the following key outcomes:

- Deployment of Windows 10 Enterprise on up to 500 devices
- Assessment and remediation of foundational infrastructure to support the deployment
- Design and implementation of an application delivery capability with Microsoft System Center Configuration Manager
- Design and implementation of Windows 10 and Office 365 Pro Plus servicing process
- Configure and enable modern deployment through Windows AutoPilot
- Design and implementation of the deployment task sequence to support an in-place upgrade deployment
- Upgrade of the existing Microsoft System Center Configuration Manager infrastructure to the latest version
- Configure co-management with Microsoft System Center Configuration Manager and Microsoft Intune
- Design and implementation of a baseline security policy for Windows 10 devices

Pilot Timeline (duration 12 weeks)

Why PlanB.?

PlanB. is Microsoft Fast Track Partner and a strategic partner for digitization and associated digital transformation based on Microsoft technologies. Thereby we not only think on innovative software solutions, but always on the future of our customers as a digital company.

Our 100% commitment to Microsoft Technologies leads us to rely on **decades of product experience in all areas of Modern Workplace** based on **recognized experts** paired with expertise in **enriching** our solutions through **Artificial Intelligence/Smart Assistance**.
