Game-Changing Live Streaming, Lecture & Classroom Capture Tools

Planet eStream's IP based capture tools simplify live streaming and recording of lectures and lessons. Everything is centrally managed via a web-based interface to provide a sleek and straightforward workflow, plus educators do not have to set up hardware or software. You can also securely broadcast events internally and externally with ease.

- Live Stream & Record Classroom Activity, Lectures & More
- Entirely IP Based for Easy Rollout
- Capture from Cameras, Whiteboards, Projectors & Other Devices Simultaneously
- Supports Inexpensive Cameras & Microphones
- Unlimited Room Licence as Standard
- No Teacher or Lecturer Set Up

Planet eStream is a unified platform that incorporates key digital media technologies into one secure and central platform. Not only does it save money, but it also provides a cohesive solution for educators, students, and IT teams.

Media Management & Video-Based Learning Tools

Create a 'YouTube Style' media library to create, manage, and deliver digital resources across your school, college or university.

- Interactive Video-Based Quiz Tools
- Custom Branding, Including Logos, Colours and Images
- Upload Media, Edit Videos and Create Chapters
- Integrations for Learning and Management Platforms
- Create Your Own Library Structure with Categories and Permissions
- Share Content via Microsoft Teams and Archive Meetings

We integrate with...   Microsoft Teams   OneNote   SharePoint   Google Classroom   **And many more...**

Digital Signage

Planet eStream is a well-established Digital Signage solution used by many educational organisations globally. The built-in screen designer enables you to easily create multi-panel signage content to engage students, staff and visitors.

- Cloud-Based Management Tools
- Unlimited Screen Licence as Standard
- Flexible Scheduling
- Inexpensive Hardware Support
- External Event Triggers, e.g. Fire Alarms
- Display Multiple Items Simultaneously, including Videos, Photos, Messages, Social Media, Live Streams and More...
