

# Plan Heal

Cardio Health Journey Assistant

Scales patient Cardiovascular health monitoring for better access and risk detection

Plan Heal is a  
Microsoft  
for Startups  
Company!

## The Problem

High numbers of Heart Failure patient incidences that go misdiagnosed, undiagnosed, or late-detected.

## Heart Failure Care Costs Continues to Increase

Heart failure (HF) is one of the commonest causes of hospitalization and accounts for more than \$30 billion of the US health care expenditure annually.

Product Solution

The Cardio Health Journey Assistant is a Smart Health Bot that can more efficiently scale patient monitoring and care guidance.

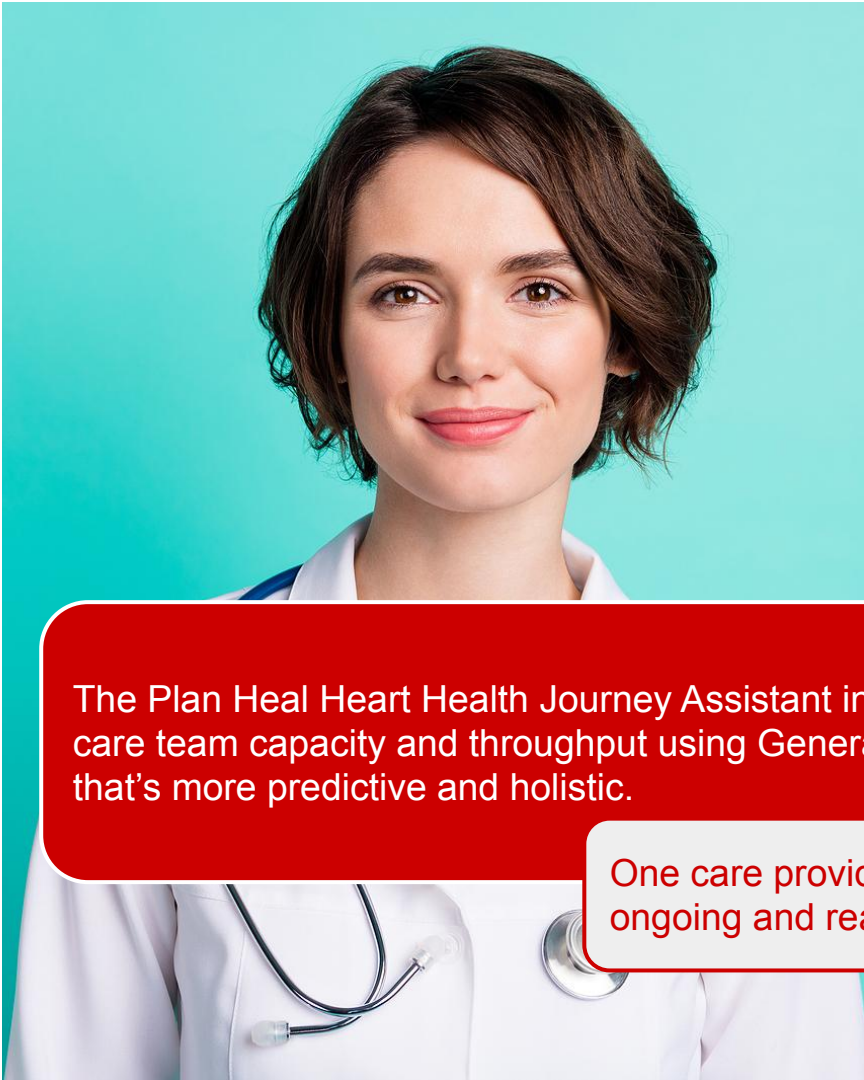

How Cardio Health Journey Assistant Works

Dr. Smith and Eva use the Heart Health Journey Assistant to continuously monitor Eva's Cardiovascular Disease more efficiently.

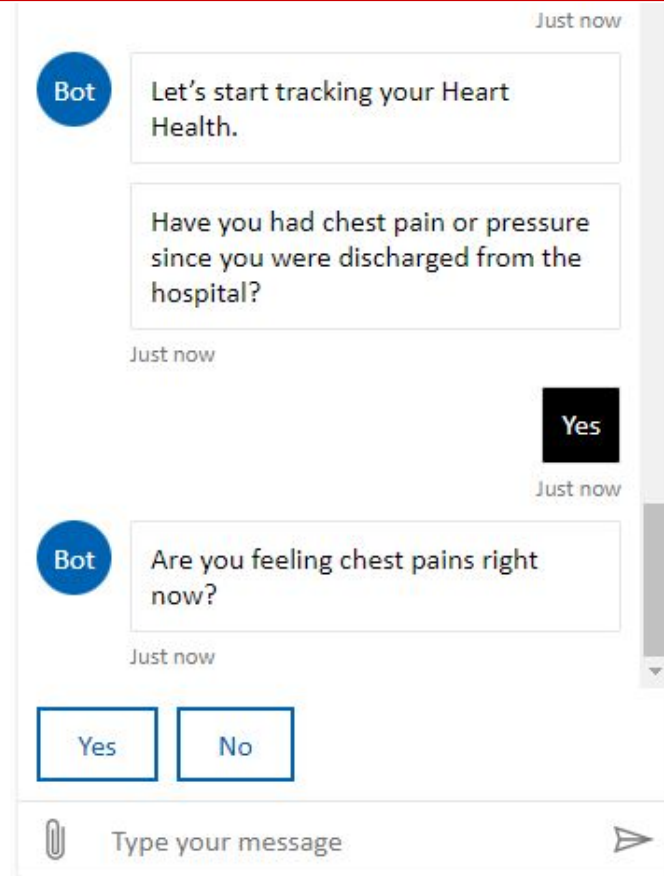

The Plan Heal Heart Health Journey Assistant increase care team capacity and throughput using Generative AI that's more predictive and holistic.

One care provider now has more patient care capacity with ongoing and real-time patient care analytics.

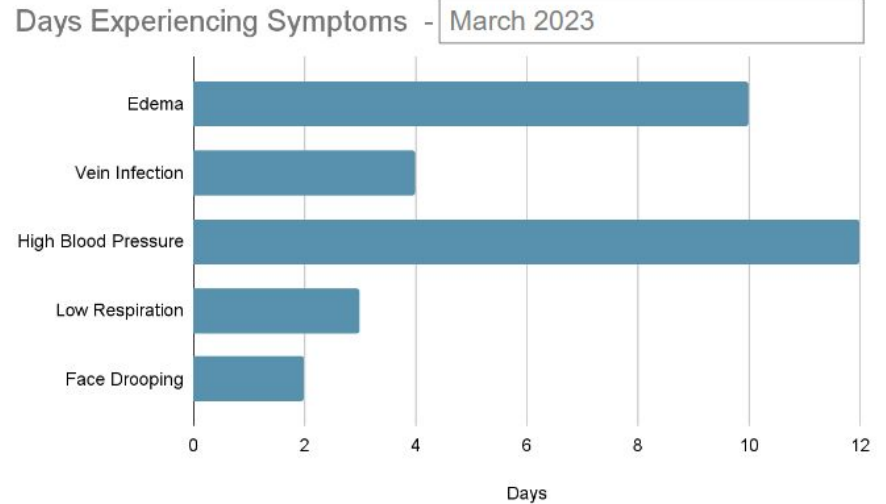

Eva can now increase her health literacy and better manage and report her health in a more holistic way.

Dr. Smith can now access analytics via the EHR that are more-  
Actionable, Predictive, Realtime, and Holistic to support  
Eva's unique needs.

Patient data represents Cardiovascular Disease patient that has comorbidities.
