MICROSOFT VIDEO INTEROPERABILITY, SIMPLIFIED.

BENEFITS

- Protect existing video investment by connecting H.323/SIP-standards-based systems into Microsoft Teams or Skype for Business meetings

- Simplify video interop workflow for users through native Outlook calendaring and Poly One Touch Dial

- Smooth migration without disruption from Skype for Business to Microsoft Teams via Poly RealConnect license portability

POLY REALCONNECT FOR MICROSOFT TEAMS AND SKYPE FOR BUSINESS

As organizations migrate to Microsoft Teams, they need a video interoperability solution to connect existing video conferencing solutions to Microsoft Teams meetings. Poly RealConnect enables users to effortlessly connect from traditional video conferencing systems to Microsoft Teams or Skype for Business meetings, and enjoy high-quality audio and video, as well as PC screen share, for the best meeting experiences.

- The only cloud video interoperability service certified for both Microsoft Teams and Skype for Business

- Support throughout Skype for Business to Microsoft Teams migration journey

- Flexible deployment option of cloud-hosted service or on-premises-based collaboration infrastructure

- Familiar Outlook scheduling and One Touch Dial to join meetings, preserving the simplicity of the Microsoft workflow

- The Poly RealConnect Tenant Report provides analytical insights to IT pros

POLY REALCONNECT FOR MICROSOFT TEAMS AND SKYPE FOR BUSINESS

POLY ONE TOUCH DIAL

Poly RealConnect Service subscription includes access to Poly Cloud One Touch Dial, a cloud-based calendaring service that translates Microsoft Teams or Skype for Business meeting information for standards-based systems (select Poly and Cisco endpoints), at no charge. For more information, visit the One Touch Dial Online Help.

Similar One Touch Dial functionality is available for RealConnect for Clariti deployment with Skype for Business through Workflow Server. Workflow Server and the Poly One Touch Dial application are set up on customer premises and provide the same one touch dial experience for supported video endpoints.

POLYCOM PROFESSIONAL SERVICES

Aligned with Microsoft FastTrack MyAdvisor, Poly is a leading provider of video and voice devices for Microsoft Teams and Skype for Business. Poly has deep experience designing, deploying, and optimizing Microsoft Teams and Skype for Business solutions with Poly devices. Additionally, we have Microsoft-certified solution architects, consultants, engineers, and technicians to help your organization understand, onboard, and benefit from Microsoft services. Poly RealConnect Integration and Onboarding Services help you quickly and easily leverage our industry-leading Poly RealConnect experience within your enterprise. It also helps you focus on optimizing the end-user experience to drive deep adoption with a consistent workflow that brings native Microsoft and standards-based video solutions seamlessly together.
