

Delivering services that assist existing Technology teams within Large Business and Enterprise across Australia and Asia-Pacific.

## WHO IS PLATINUM TECHNOLOGY CONSULTING

Our purpose is to enable businesses to achieve their vision through the right technology.

## PLATINUM'S CORE VALUES

- EXCELLENCE:** Always push for technical excellence. Aim for the highest quality of work and service. Never accept the status quo. Continuous education. Be your absolute best.
- URGENCY:** Take charge and drive the outcome. Move mountains to get it done **now**. Do it properly the first time. Every client and every task is important.
- INTEGRITY:** Be honest, respectful & trustworthy.
- RESPONSIBILITY:** Be personally accountable, celebrate wins, own your mistakes, and hold each other into account.
- CARE:** Genuinely care about your colleagues, your clients and your partners. Treat them like family.
- TEAMWORK:** Always have each others back. Look for opportunities to assist each other.

## CASE STUDY

### J Trust Royal Bank

The design and build of Cloud IT Infrastructure for one of Cambodia's largest banks.

1. The Customer
2. Their Problem
3. Why Platinum Tech (cost, flexibility, agility)
4. The solution (3 streams to 12)
5. Transition and Handover

*"We needed a service provider that could move fast and iterate. This wasn't your everyday IT system set-up."*

GLENN MILLER

CIO – J Trust Royal Bank Cambodia
