

Microsoft 365 Security & Compliance Assessment

Co-sell Ready Solution by PlexHosted

THE CHALLENGE

- Organizations in healthcare, finance, and government face growing risks of non-compliance with HIPAA, PCI DSS, GDPR, and other standards.
- Microsoft 365 environments are often left with default settings, creating security and audit gaps.

OUR SOLUTION

PlexHosted provides a comprehensive Microsoft 365 Security & Compliance Assessment:

1. Identifies risks and misconfigurations in your tenant.
2. Maps findings to compliance frameworks (HIPAA, PCI DSS, GDPR, SOX, FERPA).
3. Delivers an actionable remediation roadmap.
4. Offers both technical and auditor-friendly reporting.

KEY BENEFITS

- ✓ Audit readiness for HIPAA / PCI DSS / GDPR / SOX / FERPA
- ✓ Reduced risk of security incidents and regulatory fines
- ✓ Stronger protection for users and data in Microsoft 365
- ✓ Backed by a certified SOC/NOC team with deep Microsoft expertise

FERPA
Family Educational Rights and
Privacy Act
