

# Power 365 AI Readiness Assessment

Discover how AI can transform your organisation with our tailored AI Adoption Assessment.

This free consultative session helps you identify opportunities to implement AI solutions, streamline operations and improve decision making processes.

The infographic features a light blue header bar. Below it, three circular icons are arranged horizontally: a target with an arrow, a clock with a pencil, and a dollar sign with a circular arrow. Each icon is centered above a text box. The text boxes are separated by vertical lines. At the bottom, a dark teal bar contains a white statistic.

- Solve customer queries quickly** with instant, personalized support available 24/7
- Drive productivity** by reducing manual processes, allowing employees more time to focus on high-value initiatives
- Reduce overhead costs, risks and time to value** by empowering makers to quickly develop scalable, secure solutions

**86% of people want AI to assist with finding the right information and answers they need**

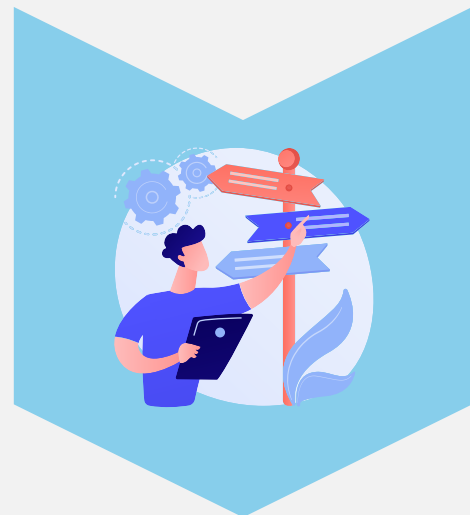

# AI Readiness Assessment Process

## **STEP 1**

### **1 hour free discovery call**

A deep delve into your current environment, key business challenges and goals, along with a clear explanation of AI and how it can benefit your business.

## **STEP 2**

### **Alignment AI strategy to business goals**

We take the insights gathered from the discovery call and work internally to align an AI strategy that directly supports your business objectives.

## **STEP 3**

### **Assessment report and actionable plan**

We develop a comprehensive assessment report and actionable plan based on our analysis, providing clear recommendations and next steps to implement AI solutions.

# Qualifying Criteria

We apply a qualifying criteria to ensure that our recommendations are feasible and impactful.

- ✓ Business use case for AI
- ✓ Seniority approval within the organisation
- ✓ Existing access to Microsoft estate
- ✓ Ability to sign or get signed a mutual NDA
