PPM Works Solution Approach

K.I.S.S.

Keep it simple for end users and limit the change to the organization. Crawl, Walk, Run.

Centralized Solution

One source for all projects/resources

Reporting

Leverage out of the box reports for simplicity

Visibility

Seeing all projects in one central, easy to use place

Collaboration

Leveraging collaboration best practices

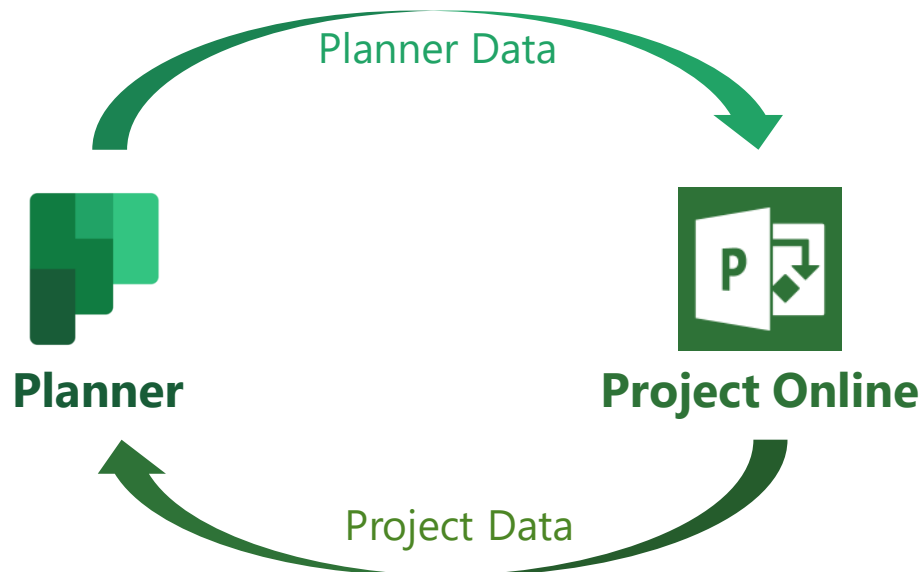

Seamless Deployment

Providing better decision making and future needs

Project to Planner Integration Tool

Allows your team to use Planner for task management while managing the execution in Project Online. Provide visibility to your executives through your bi-directional synchronization to/from Project Online and Planner.

Automatically provide updates on project progress and tasks status completion through Planner using Microsoft Azure Managed Apps.

Planner to Project Tool

1. Install Planner to Project tool
2. Train use of tool
3. Test with client and review results

Benefits

Reduce Costs

Save on Project Online licenses by utilizing Planner

Portfolio Visibility

See all your project updates and tasks status completion in one location

Automate work

Get rid of manual status reporting by automatically pushing the main project updates

Collaborate Seamlessly

Keep your team updated on priorities from Project Online across teams
