

Exchange Migration Services: 2-week Implementation

Our Exchange Migration Services leverage the expertise of our Exchange Senior Architects for an affordable and enterprise-class approach to migrating your mailboxes.

Team PSI's Packaged Migration Services for Microsoft 365 offer an affordable and predictable way to migrate your organization to Microsoft 365.

Take the guesswork out of your email migration project. The process and advanced tools used by our consultants are designed to migrate your email mailboxes and related data to the cloud without business or employee interruption and guaranteed no loss of data.

Key Benefits:

- **Affordable email migration plans:** Our email migration plans are competitively priced for SMB organizations and help your organization transition to Microsoft 365 with ease
- **Predictability:** Take advantage of fixed costs and a quality migration delivery by our team of Microsoft 365 experts
- **Realize the value of your investment:** Once your email migration is complete, let our staff help you plan, deploy, and manage advanced features to help your organization enjoy higher worker productivity, business insight, improved collaboration, communications, and better knowledge management
