Azure Databricks

Faster and More Manageable Analytics

Analytics projects are costly, in both time and money. How would it impact your business if your pipelines had higher performance, were more reliable, and ran faster?

What is Azure Databricks?

Azure Databricks is a fast, easy, and collaborative Apache Spark based analytics platform optimized for Azure. Spark is the most popular open-source analytics engine, and Microsoft offers it as a service providing an easy and fast way to unlock big data use cases. Azure Databricks offers best-in-class notebooks experience for productivity and collaboration as well integration with Azure Data Warehouse and Power BI.

The Value

- Get started quickly
- Innovate faster
- Share insight in powerful ways

The Proof

- Implementation reduced from weeks to days
- Reduced strain on analytics team

The Outcomes

- Get data live quickly
- Happy analytics customers

What Microsoft Says

"With Azure Databricks and its native integration with other services, Azure is the one-stop destination to easily unlock powerful new analytics, machine learning, and AI scenarios."

The Pragmatic Works Difference

Our team of Microsoft MVPs and industry experts assist 97% of Fortune 100 companies in transforming their business from good to great by helping you implement advanced analytics solutions that allow you to innovate and share data faster.
