

Azure Synapse Analytics Pilot

Achieve success by creating a customized analytics solution that will have an immediate impact on your business.

Azure Synapse, formerly Azure SQL Data Warehouse, is Microsoft's powerful new platform that combines enterprise data warehousing and big data analytics. Customers will get a unified experience combined with limitless scale and powerful insights. Analytics in Azure is 14 times faster and costs 94% less than other cloud providers.

Pragmatic Works wants you to see the value of moving your analytics workload into Azure firsthand. With Azure Synapse Analytics Pilot, we will work with your team to assess the workload you want to move to Azure Synapse.

With this information we will build a customized data warehouse and develop interactive reports using Power BI.

Interactive Agenda Overview

- Work with your team to gather data for the pilot data warehouse
- Pilot Azure Synapse in your environment for testing and training
- Develop interactive Power BI reports using your data in Azure Synapse
- Present roadmap based on findings using your data
