

5Xa]b]b `U`8UmWorkshop

Power BI is a business analytics service that gives you a single view of your business data, with the ability to monitor the health of your business using live dashboards, create rich interactive reports and access your data on the go, from your mobile devices. In this 2-day Power BI workshop covering in-depth Power BI topics you will learn how to go beyond just the basics. Whether you've been working with Power BI for a short time or for years this session will help take your Power BI skills to the next level in some of the most important areas of the tool.

After this course you will better understand how to:

- Use advanced data shaping techniques
- Understand complex DAX patterns
- Power Apps integration
- Leveraging the Power BI Service capabilities

Target Audience

- Business Analyst
- Data Professionals
