The Work Process of PranWorks

01

Gather requirements for planning

Collaborating with clients, PranWorks engages in planning the work for each sprint.

02

Development

PranWorks executes the development activities based on the planned work for each sprint.

03

Testing and Progress Reporting

PranWorks conducts system testing and provides periodic progress reports, including updates on the status of the work.

04

Delivery and Documentation

PranWorks delivers the completed product and provides documentation or relevant materials to clients, including user manuals or guidelines.

05

Feedback and Issue Resolution

PranWorks collects feedback, addresses issues, and resolves them to ensure successful delivery to clients.

06

Evaluation and Improvement

PranWorks evaluates the work and the process, aiming for continuous improvement in future iterations.

07

Final Delivery

PranWorks delivers the final product, ensuring it meets all the requirements and expectations of clients.
