Call now and have our productivity solution deployed in 3 months!

Insurance content: claims, policies, images, contracts, invoices

The engine will take your legacy paper claims, paper policies and back-office contracts and invoices and make them searchable.
Find the information you need when you need it!

Search: PDFs, Word, Excel, PowerPoint and handwritten notes

Find, filter, and retrieve information that was once impossible to search.
Get faster and more accurate search results than previously possible.

Direct search within Microsoft Teams

Share, search, and collaborate on documents in a **secure and familiar** business environment. No need to switch between tools!
