

Yeshiva University adopts Microsoft 365 Business Voice

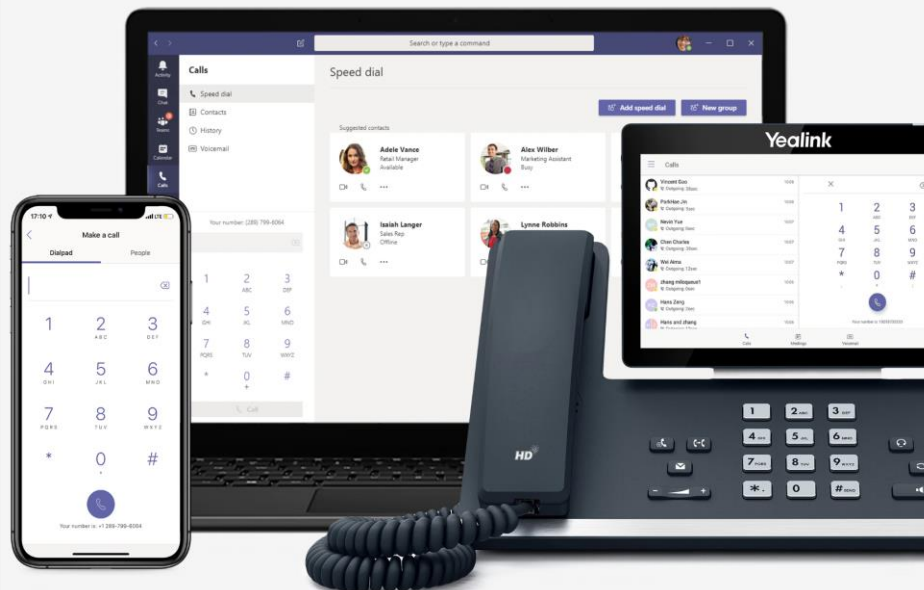

Yeshiva University is a New York based institution of higher education founded in 1886.

Over the last several months, Preeminent Solutions has worked with Yeshiva University to develop and launch Microsoft 365 Business Voice for them.

During the Pandemic, it is essential that Yeshiva has the

infrastructure to support its faculty and staff to work from home.

Microsoft 365 Business voice is a cloud-based telephony solution that integrates into the existing Office 365 package, meaning employees are able to call, chat, record and share meetings in a single app; Microsoft Teams.

At-a-glance:

Customer: Yeshiva University

Website: <https://www.yu.edu>

Customer Size: About 4,000 faculty & staff
6,000 students

Country: United States

Industry: Education

Products and Services: Microsoft Azure

Customer challenges

Yeshiva University needs communication and collaboration tools that are easy to use and designed to work together and which can be used by their faculty and staff from home as well.

Partner Solution

Microsoft 365 Business Voice is a modern cloud-based solution in Microsoft Teams. Together, they deliver an all-in-one communication solution bringing together calling, chat, file-sharing, and meetings into a single application.

Customer Benefits

The flexibility that Microsoft 365 Business Voice brings to remote working has been a game changer. From collaboration to the connectivity offered across multiple devices, every little detail makes the whole experience so much better.

Full features of cloud-based phone system including call transfer, multi-level auto attendants, and call queues. Easy to add and remove users instantly

Simplify communications by unifying calling with chat and meetings in Microsoft Teams. Contacts and calendar are connected across Teams and Outlook. And collaborate using Word, Excel, and PowerPoint within calls and meetings

Stay always connected, communicate with more flexibility and work confidently with a reliable and secure cloud-based solution
