

GP2BC QuickSwitch

Accelerate your business evolution with an effortless move from Dynamics GP to Business Central

GP2BC QuickSwitch helps you move from Dynamics GP to Dynamics 365 Business Central with a clear, phased approach. It's designed to simplify migration, reduce risk, and prepare your business for modern, cloud-based operations.

Why you must switch from GP to BC now

GP is reaching the end of mainstream support.

Business Central offers native cloud functionality, better integration, and mobile access.

Unlock future-ready capabilities like AI, analytics, and automation.

What's included:

- ✓ One production company setup in Business Central (Cloud)
- ✓ Out-of-the-box reports + Power BI dashboards
- ✓ 20+ hours of training for super users
- ✓ Core modules: Financials, Sales, Purchasing, Inventory, Basic Warehouse
- ✓ Master data + opening balances migration
- ✓ Go-live support and post-launch warranty

Choose your QuickSwitch package

| Package | Modules | Timeline | Training |
|------------|---|----------|----------|
| Essentials | Finance | 6 weeks | 20 hrs |
| Catalyst | Finance, Sales (GL), Purchase (GL) | 8 weeks | 28 hrs |
| Pro Suite | Full suite incl. Inventory & Warehouse | 11 weeks | 40 hrs |
