PRESIDETECH

Cloud Strategy and Roadmap 3-Day Workshop

The purpose of this engagement is to help your organization determine a go-forward strategy for cloud computing based on a series of workshops on the technologies and business requirements.

Our Cloud Strategy Briefing and Workshop will pair your team one of our CIO-level strategy consultants and additional subject matter experts as needed to help you formulate your cloud journey. We will work together to arrive at the ideal collection of technologies and processes to maximum potential benefits in the least disruptive and most cost-effective manner. Developing a proper roadmap for your cloud integration is paramount to achieving successful results and maximizing the return on your time and investments.

The primary goals for this engagement are as follows:

1. Review the state and components of your organization's current infrastructure.
2. Conduct a series of workshops to work through elements of a cloud strategy roadmap and provide overviews of relevant technologies.
3. Develop a roadmap plan for how your organization will develop its IT services to better meet the technical and business needs.
   - Describe the major initiatives that are recommended for your organization's IT
   - The timing of those initiatives
   - The business drivers for undertaking each initiative

Day One:

- Introductions and Engagement Objectives
- Discuss the Current State of Cloud Adoption
- Workshop on Refining Business and Technical Requirements
- Cloud Overview Focused on Requirements Gathered
- Review Compute and Application List and Request Additional Information

Day Two:

- Collaboration Workshop: Connecting Everything Securely and Intuitively
- Infrastructure and Application Optimization and Transformation
- License Optimization
- Security: Maintaining Control of Your Services and Data
- Operations Streamlining
- Cloud Solutioning – Focus Time for Creating the Roadmap Documentation

Day Three:

- Roadmap Paving: Defining Priorities and Sequence
- Complete the Roadmap Deliverable
- Engagement Summary and Scheduling Next Steps
