# Azure Application Innovation Assessment

## THE CHALLENGE

IT organizations tasked with digital transformation initiatives are under intense pressure to deliver return on investment, especially during uncertain economic times. Identifying the highest value application modernization opportunities is half the battle. Without a focused effort, and rapid execution, the potential for scope creep and project delays grows.

## THE SOLUTION

Presidio understands that application innovation drives business outcomes. We specialize in delivering applications that drive a differentiated and flexible customer experience at scale. Presidio's Azure Application Innovation Assessment helps clients focus on those value-maximizing opportunities. We do this by diving deep into the code of a select set of targeted applications and migrating those onto the Azure cloud.

## OUR APPROACH

Presidio works with clients to identify up to five targeted on-premise applications to modernize based on the "5 R's of Rationalization": Rehost, Refactor, Rearchitect, Rebuild, and Replace. Our Azure Application Innovation Assessment prioritizes innovation opportunities based on the following strategies:

## KEY BENEFITS

In 4-6 short weeks, Presidio will perform a deep-dive analysis of up to five targeted applications and their respective infrastructure. We conduct interviews with each stakeholder to identify the business value and plan for a move to Azure. We develop a cohesive modernization strategy, reference architecture, gap analysis and DevOps evaluation. At the culmination of the engagement we will deliver:

- ◆ Detailed migration and strategy plan
- ◆ Cloud Readiness / Adoption report
- ◆ Architecture recommendation
- ◆ Cloud Adoption Framework Governance analysis and DevOps recommendations
- ◆ Cost estimate for Azure migration
- ◆ Azure usage cost estimate

**PRICE: \$30,000**

## WHY PRESIDIO

Presidio is a global digital services and solutions provider accelerating business transformation through secured technology modernization. Highly skilled teams of engineers and solutions architects with deep expertise across cloud, security, networking, and modern data center infrastructure help customers acquire, deploy, and operate technology that delivers impactful business outcomes. Presidio is a trusted strategic advisor with a flexible full life cycle model of professional, managed, and support and staffing services to help execute, secure, operationalize and maintain technology solutions. For more information, visit [www.presidio.com](http://www.presidio.com).

	Security & Management			SaaS
	Migration & Modernization	Cloud Native		
On-Premise Applications	<b>REFACTOR</b>	<b>REARCHITECT</b>	<b>REBUILD</b>	<b>REPLACE</b>
Drivers	Minimal code changes to migrate to cloud	Modify applications to take advantage of the cloud	New code with Cloud Native approach	Replace a custom-built app
Benefits	<ul style="list-style-type: none"> <li>• Faster, minimal updates</li> <li>• Code portability</li> <li>• More productivity</li> </ul>	<ul style="list-style-type: none"> <li>• Agility and scalability</li> <li>• Quick adoption of new capabilities</li> <li>• Technology mix</li> </ul>	<ul style="list-style-type: none"> <li>• Accelerate innovation</li> <li>• Faster app development</li> <li>• Reduced Opex</li> </ul>	<ul style="list-style-type: none"> <li>• Reduced Capex</li> <li>• Better support</li> </ul>
Technologies	Containers (PaaS)	Serverless, Microservices (PaaS)		(SaaS)
