

# Presidio Azure Development Pods

## THE CHALLENGE

**Businesses and consumers demand modern applications that are resilient, scalable and secure. Demands for additional features, timely releases and modernized services requires access to more developers and data engineers to produce quality results and support the business' needs.**

### Microsoft Azure

Microsoft Azure is a comprehensive cloud computing platform deployed globally to assist customers with their computing needs. Microsoft Azure is used by thousands of customers to reliably and securely meet their needs for a scalable and cost-effective computing platform.

## THE SOLUTION

Presidio provides custom application development and modernization services for Azure. This offering is designed to provide agile development and a flexible team approach to align with business needs, with a predictable cost structure.

## Presidio Azure Development Pods
