# Azure Virtual Desktop with Nerdio

## THE CHALLENGE

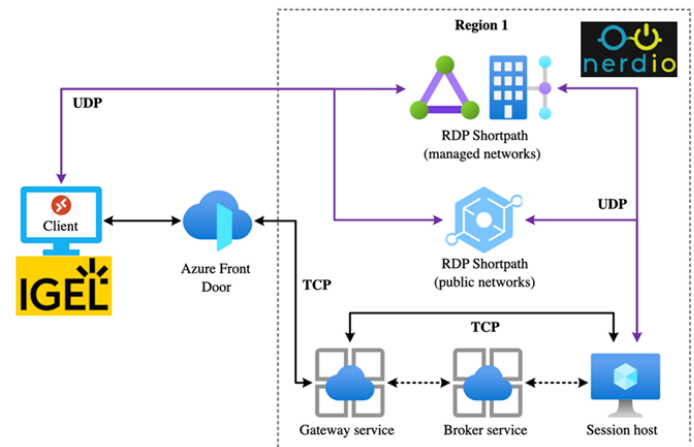

Remote and hybrid work is no longer a trend. It's become the status quo for industries of nearly all verticals. Microsoft Azure Virtual Desktop (AVD) has proven critical for companies to enable virtual employees rapidly and securely from almost anywhere. Still, AVD can be cumbersome to setup and manage, and costs can balloon if compute and storage is not optimized. IT teams need a seamless way to realize the benefits of AVD without falling prey to administrative headaches or distracting from business strategy.

## THE SOLUTION

Nerdio Manager for Enterprise enhances Microsoft's native components with best-in-class enterprise capabilities. Below are some of the key features which are included with Nerdio Manager for Enterprise and critical to overall project success and ongoing support.

- ◆ Management and Automation
  - Image life cycle including persistent and non-persistent options
  - Scripted Actions
  - Self Service User Portal
  - Granular Role Based Access Controls (RBAC)
  - Remote Application Management and Publishing
  - Intune Integration
- ◆ Cost Optimization and Reporting
  - Compute and Storage Auto-scaling
  - Cost Modeling and Per user Cost Chargeback Reporting
  - Decommissioning Unused Desktops

- ◆ Resilience & Scalability
  - Backup and DR Automation
  - Azure Stack HCI Integration
  - Multi-region AVD

Clients who take advantage of Nerdio can realize value even faster with Presidio's Azure Virtual Desktop with Nerdio professional services offering. This offering with project management provides the following at a high level. Detailed scoping will be done on a per client basis.

- ◆ Discovery and Design workshop
- ◆ Nerdio Manager for Enterprise configuration
- ◆ AVD Images for single or multi-session with optimization to meet clients use cases
- ◆ FSLogix configuration and app masking where needed
- ◆ Remediation and fine tuning
- ◆ Pilot support
- ◆ Knowledge transfer and As-built documentation

## Azure Virtual Desktop with Nerdio

---

### KEY BENEFITS

Clients who take advantage of this offering get up and running with Nerdio-amplified AVD faster and realize immediate value.

- ◆ Lower Azure compute and storage costs by up to 80% via automation and license optimization
- ◆ Simplify Azure management
- ◆ Ensure efficient operations

The combination of Microsoft, Presidio and Nerdio empowers IT to deliver and maintain a wide range of virtual Windows endpoints across hybrid workforces while fine-tuning end-user computing approaches for maximum effectiveness.

### WHAT MAKES US DIFFERENT

Presidio is a leading Azure Virtual Desktop (AVD) Services Provider with over 5+ years of delivering successful AVD projects. This is backed by our AVD Services Specialization which Presidio was one of the very first VARs in the Country to achieve and maintain this elite status.

As a result, Presidio has access to more funding from Microsoft to offset the cost of these Proof of Concept (POC) and or Pilot professional services projects. We also carry more than 250 Microsoft Cloud and 120 Advanced Azure certifications.

### WHY PRESIDIO

At Presidio, speed and quality meet technology and innovation. With a decades-long history of building traditional IT foundations and deep expertise in automation, security, networking, digital transformation, and cloud computing, Presidio is a trusted ally for organizations across industries. Presidio fills in gaps, removes hurdles, optimizes costs, and reduces risk. Presidio's renowned technical team develops custom applications, provides managed services, enables actionable data insights, and builds forward-thinking solutions that drive extraordinary outcomes for customers globally.
