

# TABLOO

Contemporary intranet and document management based on **Office 365 SharePoint**.

## GET YOUR PEOPLE ENGAGED

Bring your co-workers closer to your business by keeping them up to date with the company's latest news, social media activities and share info on upcoming events or ask for feedback.

## MAKE YOUR INTRANET REFLECT YOUR COMPANY

Customise it to cover all your company's needs. By combining different Office 365 applications you will have unlimited possibilities for maximizing your intranet functionality.

## KEEP YOUR DOCUMENTS IN ORDER

Get to the information you are looking for thru well-structured and systemized document system which is supported by a powerful search engine.

## PROVIDE EASY ACCESS FOR ANY DEVICE FROM ANY LOCATION

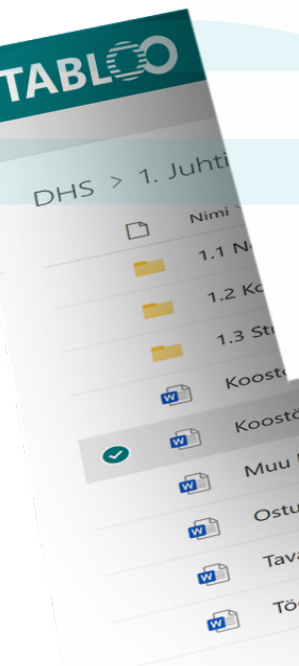

Enjoy communication platform, where editing documents, sharing templates and calendars is made easy for working from the office and from home.

## GET SECURE PLATFORM

Use interface that is GDPR-compliant and allows you to track its usage within the company and monitor user-access from outside.
