In – person Verification

The screenshot shows a web browser window with the URL `sohamkyc.z10.web.core.windows.net/ipv.html`. The page title is "In-Person Verification". Below the title, there is a paragraph of instructions: "Once you click the Generate OTP button, you will receive an OTP in your Email. Kindly note the same on a white paper and show in front of the camera after clicking 'Start recording button'. After 10 seconds for Recording, please press the 'Stop Recording Button' and submit. The maximum time permitted for recording the entire data is 30 seconds." Below this text is a green button labeled "GENERATE OTP". Underneath, a message states: "Could not find stored procedure 'Set_ClientMasterPDFInputData_SendEmailOTPForIPV'." The next section is titled "Recording Session" and includes the instruction: "Kindly ensure that Recording Button is pressed only after the OTP received is noted on a paper to avoid delay." This section contains two green buttons: "START_RECORDING" and "STOP_RECORDING". Below these buttons is a video player showing a black screen with a play button and a "0:00" timer. At the bottom of the page, there is a blue link: "Before Submit, please review the video to check the face and OTP is displayed on screen while recording. In case you need to re-record the video, click on Start Recording button." and a grey "SUBMIT" button.

- Click on Generate OTP button. This will generate email OTP.
- User needs to write that OTP in white paper.
- Click on Start Recording button.
- Click on Stop Recording button to stop recording.
- By default, recording will end in 30 seconds
- Click on submit to end the KYC process.
- After submit, the below mentioned confirmation screen will appear.

Thank You !!
