

Transform Your Business with a Custom Microsoft 365 Copilot Agent

Unlock Efficiency, Insight, and Innovation

ProArch's Custom M365 Copilot Agent Development empowers your organization to automate routine tasks, deliver instant decision support, and harness the full potential of your data—tailored to your unique needs.

Why Choose a Custom Copilot Agent?

- **Automate Repetitive Work:** Free your team from manual processes and boost productivity.
 - **Instant Answers & Recommendations:** AI-powered support for complex queries and decision-making.
 - **Seamless Integration:** Connects with your existing Microsoft 365 and business systems.
 - **Continuous Learning:** The agent evolves with your business, getting smarter over time.
 - **Maximize Your Microsoft 365 Investment:** Drive user adoption and ROI with a compelling, real-world use case.
-

What's Included?

- **Discovery Workshops:** Define goals, success criteria, and use cases.
 - **Solution Design & Architecture:** Tailored to your workflows and data.
 - **Development & Testing:** Built on Microsoft Copilot and Azure OpenAI, with rigorous validation.
 - **Deployment & Training:** Smooth rollout, user guides, and hands-on training.
 - **Ongoing Support:** Post-launch assistance and managed services available.
-

Ready to Get Started?

Let ProArch help you deploy a custom Copilot agent that transforms how work gets done—faster, smarter, and more consistently.
