PRODUCT INFORMATION SHEET

Microsoft 365 Copilot Readiness

Executive Briefing · Live Demos · AI Agents · Built for Decision Makers

Microsoft 365 Copilot is changing how organizations work, but moving from interest to adoption requires more than a demo. This executive readiness briefing gives business and IT leaders the clarity needed to invest in Copilot with confidence and build a practical path to enterprise AI.

WHAT WE COVER

- 1 The Copilot Landscape**
How Microsoft 365 Copilot works across Word, Excel, Outlook, Teams and PowerPoint, and where it delivers the strongest impact.
- 2 Licensing & Promotions**
Available SKUs, prerequisites, and active Microsoft incentives that can accelerate your business case.
- 3 Readiness Factors**
Identity, data security, governance, and change management considerations that determine whether Copilot succeeds or stalls.
- 4 Live Demonstrations**
Copilot in action across Microsoft 365 applications, plus real examples of custom AI agents built on Copilot Studio.
- 5 Use Case Discovery**
A guided working session to surface the highest-value Copilot and agent opportunities, mapped to your business priorities.
- 6 Roadmap & Next Steps**
Tailored readiness checklist, shortlist of recommended use cases, and a clear path to move from briefing to deployment.

WHY PTG

PTG is a Microsoft Solutions Partner with deep expertise in Modern Work, Security, and AI. We have delivered Microsoft 365 Copilot and Copilot Studio engagements across the MEA region for clients in banking, telecom, energy, education, and government. Our team combines product depth, security expertise, and hands-on experience building production AI agents — giving customers a partner who can take them from briefing to deployment.

WHO SHOULD ATTEND

CIOs, CTOs, IT directors, business unit leaders, digital transformation leads, and anyone responsible for productivity, security, or AI strategy in their organization.
