

## Transform Your Contracting Processes with Awarded.AI

Awarded.AI by Procurement Sciences leverages state-of-the-art Generative AI technology to revolutionize government contracting. Our platform supports your team through every phase of business development, capture, and proposal processes, ensuring you stay ahead in the competitive market.

### Key Solutions

- **Enhanced Proposal Review:** Automate intelligent reviews aligned with evaluation criteria to ensure compliance and maximize success.
- **Opportunity Discovery:** Effortlessly identify and analyze federal, state, and local opportunities that match your capabilities to pursue high-value projects.
- **Powerful Workflow Assistants:** Integrate pre-built or custom AI assistants to optimize workflows and meet your organization's unique needs.
- **Instant Industry Insights:** Access real-time industry and government data to inform strategies and stay competitive.
- **Intelligent Knowledge Partner:** Empower your team with instant answers, deep knowledge discovery, and dynamic content creation to streamline decisions and boost productivity.
- **Proposal Automation Suite:** Quickly generate accurate compliance matrices, detailed outlines, and compelling proposals.
- **Pipeline Management:** Streamline opportunity tracking and collaboration with intuitive tools to enhance visibility and focus resources for more wins.
- **Document Intelligence Hub:** Unlock insights from document repositories and government data with real-time analysis and concise summaries for smarter decisions.
- **Visual Impact Creator:** Produce brand-tailored graphics to enhance the clarity and persuasiveness of your proposals.
- **Relationship Management:** Organize contacts, accounts, and partnerships while leveraging AI-driven insights to strengthen relationships and uncover opportunities.

### Proven ROI, Unmatched Expertise

Streamline operations, enhance productivity, and boost win rates with our powerful Generative AI platform. Let the AI handle mundane tasks while your team seizes the missed opportunities!

# Enterprise-Grade Data Security and Flexible Deployments

At Procurement Sciences, we prioritize the security, privacy, and protection of your data above all. Awarded.AI is trusted by thousands of customers, from Fortune 500s to flourishing small and mid-sized businesses, and designed with an unwavering focus on safeguarding user information.

## Security Features:

**Data Privacy:** All data within Awarded.AI is fully protected with end-to-end encryption, ensuring confidentiality and integrity

**Regular Audits:** Our systems undergo rigorous security audits to maintain and enhance protective measures. Fully compliant with federal and international data protection regulations.

**AI Model Privacy:** Your data is never used for public model training, leaked, or accessible outside the private instance.

## Deployment Options:

### 1 Procurement Sciences Managed Cloud

Hosted in our secure Microsoft Azure Cloud environments, this option offers robust security and hassle-free management with same-day deployments.

### 2 On-Prem Deployment

For organizations requiring internal control, deploy Awarded.AI on your private cloud or servers.

### 3 SCIF Deployment

We support off-network deployments within Sensitive Compartmented Information Facilities (SCIFs) for operations requiring isolated environments.

## Choose Your Path to Innovation

Whether you prefer the convenience of cloud services or need the stringent security of on-premises infrastructure, Awarded.AI provides the flexibility to meet your specific requirements. Our deployment models are designed to ensure that you have the right tools, in the right environment, to succeed.
