

Win More Bids with Awarded.AI

Transform Your Contracting Processes with Advanced Generative AI

Awarded.AI by Procurement Sciences leverages state-of-the-art Generative AI technology to revolutionize government contracting. Our platform supports your team through every phase of business development, capture, and proposal processes, ensuring you stay ahead in the competitive market.

Key Features:

- **AI Chat:** Engage with our powerful general-purpose chatbot for instant Q&A, knowledge search, & text generation.
- **AI Drafter:** Automate and tailor your proposal drafts, outlines, and compliance matrixes with precision in a fraction of the time.
- **AI Review:** Optimize proposal quality with automated, intelligent compliance reviews based on your custom evaluation criteria.
- **AI Graphics:** Create compelling graphics automatically to enhance your proposals.
- **Custom Assistants:** Build AI assistants customized for specific organizational requirements tailored to your workflows.
- **Real-Time Research:** Access the latest internet and industry data relevant to your projects and analyze and extract insights, instantly.
- **Document Q&A:** Upload any type of document for real-time insights, answers, analysis and text summarization.
- **Solicitations:** Search for, match to, and analyze opportunities directly from various federal, state, and local sources.
- **OppTracker:** Efficiently track, manage, and collaborate on your pipeline and opportunities.
- **CRM:** Organize and manage contacts, accounts, and teaming partnerships seamlessly with instant AI insights and information retrieval.

Enterprise-Grade Data Security and Flexible Deployments

At Procurement Sciences, we prioritize the security, privacy, and protection of your data above all. Awarded.AI is trusted by over 150 leading enterprises, from fortune 500's to flourishing small and mid-sized businesses, and designed with an unwavering focus on safeguarding user information.

Security Features:

- ✓ **Data Privacy:** All data within Awarded.AI is fully protected with end-to-end encryption, ensuring confidentiality and integrity.
- ✓ **Regular Audits:** Our systems undergo rigorous security audits to maintain and enhance protective measures. Fully compliant with federal and international data protection regulations.
- ✓ **AI Model Privacy:** Your data is never used for public model training, leaked, or accessible outside the private instance.

Deployment Options:

01 Procurement Sciences Managed Cloud

Hosted in our secure Microsoft Azure Cloud environments, this option offers robust security and hassle-free management with same-day deployments.

02 On-Prem Deployment

For organizations requiring internal control, deploy Awarded.AI on your private cloud or servers.

03 SCIF Deployment

We support off-network deployments within Sensitive Compartmented Information Facilities (SCIFs) for operations requiring isolated environments.

Choose Your Path to Innovation

Whether you prefer the convenience of cloud services or need the stringent security of on-premises infrastructure, Awarded.AI provides the flexibility to meet your specific requirements. Our deployment models are designed to ensure that you have the right tools, in the right environment, to succeed.
