

## PROGEAZURETEAMSCONNECT

AZURE AND TEAMS HELP DISTANCE LEARNING

ProgeAzureTeamsConnect is a solution that, leveraging Microsoft cloud technologies, helps learning institutes to provide their students with distance learning in a simple and automated way.

Through the integration of Azure and Teams with all the information systems of universities and educational institutions, ProgeAzureTeamsConnect responds in a timely, rapid and efficient way to the growing need to remotely manage lessons, laboratories and exams.

### WHAT IS PROGEAZURETEAMSCONNECT

ProgeAzureTeamsConnect is a component that automates the management of the entire life cycle of the teams required by the training offer in learning institutes. ProgeAzureTeamsConnect interacts with identity sources and training offer to automate the following tasks:

- Create a Team for every course
- Update the details for every Team
- Manage Team ownership
- Manage Team membership

### Why customers use ProgeAzureTeamsConnect

- **Fast**  
No manual updates, no errors
- **Cloud oriented**  
Everything is deployed in Azure
- **Easy to adopt**  
Technology is containerized
- **Automated**  
Human intervention is limited to the implementation phase
- **Helpful**  
Valid solution to a growing issue
- **Advantageous**  
Reduced operation time, better chance of success in distance learning

### VALUE TO COSTUMER

➤ Faster Teams creation

➤ Our solution checks information systems in background several times per day

➤ Fast updates, error free

➤ Zero on-prem footprint

➤ Our solution is completely deployed in Azure

➤ High performance, no downtime

➤ Set it and forget it

➤ Our solution is completely automated

➤ Zero human intervention
