

# Reduce Infrastructure Complexity and Scale Globally with Sitefinity Cloud

## About Sitefinity Cloud

Progress® Sitefinity® Cloud is a fully managed PaaS hosted by Progress on Microsoft Azure for enterprise content and experience management that combines unmatched ease of use, intelligent tools for marketers, and a highly customizable decoupled platform for developers.

## What we offer

Sitefinity Cloud taps into the robust Microsoft Azure infrastructure, services and components to ensure developer flexibility, low maintenance and high performance of your websites and applications.

Designed to reduce infrastructure overhead, Sitefinity Cloud offers multiregional failover protection and seamlessly scales to maximize uptime.

A SIEM solution based on Microsoft Azure Sentinel improves visibility while the CDN integration, Microsoft Azure WAF, and the built-in Web Security Module provide DDoS mitigation and threat protection.

Git source control, CI/CD pipelines via Azure DevOps, integration with Microsoft Logic Apps and Azure Cognitive Search streamline development and reduce complexity, making Sitefinity Cloud a viable alternative to traditional monolithic CMS solutions.

## What our customers are saying

"We can launch a dealer website in less than a couple weeks from contract acceptance thanks to continuous deployment through Microsoft Azure and Visual Studio Team Services (VSTS)."

— Beth Stanford,  
Digital Marketing Manager,  
Kubota Tractor Corporation

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
