

WeAreProject Microsoft 365 round table

Help IT transition to Modern IT.

We live in a time of incredible transformation. **Digital transformation** is coming and not slowing down. IT must be at the top of the table and control its own destiny in this transition, helping to drive the business as it evolves. We believe Microsoft 365 is the best way to both transform your organization and transition to the world of modern IT. Basically, a modern workplace running **Windows 10 Enterprise**, **Office 365 productivity solutions** and managed by the **Enterprise Mobility and Security Suite (EMS)**, is the

best way to afford the new challenges. With this combination, companies can harness the power of the cloud to simplify IT life, reduce costs and move to modern IT at their own pace. Employees have the **best productivity tools** to collaborate and get the job done.

◆ OUTCOMES ◆

This workshop is designed for customers taking their **first steps** in planning to acquire and deploy **Microsoft 365 solutions**. Our consultants will help to get the vision and to explore features, capabilities, understand new security enhancements, explore deployment options and assess

infrastructure dependencies. Together you can see the **journey** to implementing and adopting the Microsoft modern workplaces
