

# Transforming how we work, learn, communicate and collaborate.

## MICROSOFT TEAMS SOLUTIONS

---

As people move between home environments, the office and on the road, they need the flexibility to maintain their digital workflow.

Microsoft's technology ecosystem is ideal for creating this foundation. Collaboration tools such as the Microsoft Surface Hub, Teams, Microsoft Teams Rooms and Direct Routing combine to provide a joined-up digital workspace where people can do their best work together.

Prosirius is a Microsoft Gold Communications Partner. This enables us to showcase our technical capabilities in implementing unified communication strategies for customers through designing, planning, deploying, and maintenance (maintaining) of Microsoft Teams solutions.

## ABOUT PROSIRIUS

---

Our primary aim is to enhance and sustain organizations effectiveness, using optimized communication solutions. We specialize in Audio Visual, Video Conferencing, Voice and Unified Communications.

## Microsoft Teams Rooms

Enable people to smoothly work between personal devices and in-room technology. Whether it's a migration, a new installation or an upgrade to your existing system,

Our team will design, configure, help you adopt, maintain and troubleshoot Microsoft Teams Rooms, and optimise networks for Teams and Microsoft 365. Our Microsoft Teams Rooms are flexible and scalable to various size meeting rooms. As a partner for Microsoft technologies, including the Surface Hub 2S, we will provide you with fully accredited devices that create an environment that brings people into a Teams call at the touch of a button.

## Microsoft Teams Voice - Direct Routing

Direct Routing provides the flexibility businesses need to integrate their existing telephony solution with Microsoft Teams. Prosirius Voice for Teams enables your organization to connect your on-premises telephony infrastructure to Microsoft Teams to have a true Unified Communications and collaboration platform. Our solution manages both inbound and outbound calls from Microsoft Teams as if it were a traditional PBX phone system.

## Embedding Microsoft Teams

### Change and adoption:

We can support any business size with change and adoption of Microsoft Teams. Take advantage of our Microsoft Accelerator Packs that are designed to enable small and medium-sized businesses to quickly realize the benefits of using Microsoft Teams.

### The service includes:

- How your business can best use Teams,
- The optimum way to set up Teams, how to communicate the move to Teams internally, training your users etc.,
- Teams reporting dashboards and ongoing support.

### Training

We offer training sessions to support your business no matter how large or small it is. Our team is well equipped at delivering across many areas of content to your end-users to include items such as:

- Introduction to Microsoft Teams
- Holding highly effective meetings in Microsoft Teams
- Enterprise voice in Teams
- SharePoint and OneDrive document management
- Other Microsoft 365 Apps such as Forms etc

## Why choose Prosirius

1

### Microsoft Gold Partners

By being a Microsoft Gold Partner, we have proven our technical capabilities in Microsoft products and technologies.

2

### Microsoft Teams Integrator track record
