

Microsoft 365

GDPR-compliant in 3 steps despite annulment of EU-US Privacy Shield

FACTS ABOUT SCHREMS II

In the Schrems II judgement, the ECJ declared the Privacy Shield invalid on account of invasive US surveillance programs, thereby making transfers of personal data on the basis of the Privacy Shield Decision between the EU and the USA invalid. This decision became effective immediately without any transitional period.

To use cloud-based services, such as Microsoft 365, companies must now themselves verify the

privacy protection in the recipient country in order to use the so-called standard contract clauses (SCCs). Therefore, companies are now obliged to act immediately in order to ensure a compliant transfer of personal data to the US.

To continue using Microsoft 365 in a compliant way, settings must be set correctly, and critical services must be disabled to prevent fines or claims for damages.

Microsoft 365 - GDPR-compliant in 3 steps

In cooperation with PRW Rechtsanwälte (law firm specialized in IT law), Provectus Technologies developed a process that enables Microsoft 365 services to be used GDPR-compliant.

Thus, your company prevents penalties or fines, while avoiding interruptions in the daily IT operations.

In a three-stage process, the Microsoft 365 services used in the company are analyzed, legally checked and adjusted according to the recommendations. Only if the settings in the Microsoft 365 environment are set correctly, and critical services are deactivated, fines or claims for damages can be prevented. All measures and settings are documented in detail. An in-depth survey including a report confirms your action and shows that additional measures have been taken in action.

Microsoft 365

GDPR-compliant in 3 steps

STEP 1

ANALYSIS OF COMPANY'S MICROSOFT 365 ENVIRONMENT

On the basis of your existing licences a detailed and professional audit matrix will be developed. Based on this matrix, all Microsoft 365 applications that are used in your company are checked. This fully elaborated and analyzed document is subsequently used for legal evaluation, carried out by our partner PRW Rechtsanwälte. Furthermore, PRW Rechtsanwälte also provides a detailed assessment to analyze your Microsoft 365 environment

STEP 2

LEGAL EVALUATION BY PRW RECHTSANWÄLTE

Based on the developed audit matrix, PRW Rechtsanwälte carries out a legal evaluation of all Microsoft 365 services used. Following this evaluation, you will receive the evaluated audit matrix with an easy comprehensible color coding. Beside the detailed legal evaluation, additional recommendations for protective measures will be provided.

STEP 3

IMPLEMENTATION OF THE RECOMMENDATIONS

Provectus supports you with the implementation of the legal recommendations. Depending on the respective Microsoft 365 service, this can include various adaptations.

TAKE THE FIRST STEP RIGHT AWAY AND CHECK IF CRITICAL APPLICATIONS ARE USED IN YOUR COMPANY.

The annulation of the transitional period requires immediate actions.

With Provectus as Microsoft Gold Partner and PRW Rechtsanwälte as IT legal experts, you are getting a team of competent experts who advise you at a fair and fixed price.
