Migrate Servers to Azure

ABOUT PROVISIONS GROUP:

A full-service IT consulting provider, we offer advisory, engineering, and managed services across a wide variety of IT needs and opportunities including software, data, infrastructure, security, and CRM.

WHAT WE OFFER

Building on the experience of working with an increasingly impressive portfolio of customers, Provisions Group will quickly understand your environment, map your environment to Azure services, and then migrate those services to Azure.

By making use of Azure Migrate – the unified migration platform from Microsoft, Provisions Group will discover, assess, map, migrate, test, and cutover your workloads to Azure in record time with fewer issues.

When you combine the premiere class migration tools from Microsoft with the hardened experience of Provisions Group, you will end up with a more accurate migration plan, higher confidence in your migration outcome, and lower risk to achieve that outcome. Let us help you get to Azure!

What our customers are saying

"Migrating our legacy colo-hosted workloads to Azure - no partner would have understood our environment as quickly or helped us as successfully as Provisions Group."

– Justin Montville, VP of IT Infrastructure, Virtual, Inc.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
