Fast track your journey to the Cloud with **Azure Accelerate** from Provoke

Microsoft Azure

ABOUT AZURE ACCELERATE

Whether you're looking to optimise a single legacy application or move your entire data centre to the Cloud Provoke will help you define a unique strategy to meet your desired business outcomes. We will assess your current solution, platforms and business processes and provide a tailored roadmap for moving your workloads to Azure and provide expert guidance on how to get the most out of your investments.

With our cloud expertise and 18 years' experience in delivering enterprise systems, Provoke is the right Microsoft Azure partner for you.

What we offer

PLATFORM READINESS

An in-depth audit of your existing application or platform. The goal is to optimize your Azure platform use, applications and operating costs. We provide detailed recommendations for improvements to your cloud strategy. Training and consulting on the Azure platform and services.

APPLICATION MODERNIZATION

Learn how you can extend your investment in your current applications by leveraging Azure services. Add value for your users through AI and support rapid change with better DevOps and architectural practices.

CLOUD MIGRATION

Create a detailed Azure-focused roadmap for your future business needs. The roadmap will cover platform setup, migration to the cloud and application optimization. It is a blueprint to execute your vision.

WHAT OUR CUSTOMERS ARE SAYING

"We were really delighted with both the approach and the outcomes of our app modernization projects with Provoke. The transparent, agile way in which Provoke engaged with us built our trust and confidence from early on."
– Stephen Bunce , Technology Delivery Manager, Trustpower

PROVOKE

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

KEY USE CASES

WEB APPLICATIONS
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

CLOUD STORAGE
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

BIG DATA & HPC
Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

MOBILE
Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

MEDIA
Create, manage, and distribute media in the cloud – everything from encoding to content protection

WHY AZURE

FLEXIBLE APPLICATION MODEL
Microsoft Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

ALWAYS ON, ALWAYS HERE
Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Microsoft Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Microsoft Azure offers is backed by industry certifications for security and compliance.

DATA CENTER WITHOUT BOUNDARIES
Microsoft Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Microsoft Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Microsoft Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with Microsoft System Center.

GLOBAL REACH
With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
