

Cloud Assessment

The start of your migration to the public cloud

The journey to the public cloud is not an easy undertaking. Moving to the cloud can create new ways to innovate and operate more efficiently, but the migration comes with new challenges. Like any migration, thoughtful preparation and strategy are primordial in order to be successful.

WHY TAKE AN ASSESSMENT?

- > **Transparent pricing offers for your migration**
- > **Properly size your workload & seamless migration**
- > **Compare different cloud providers**
- > **Increase business efficiency & innovation opportunities**

What is Cloud Assessment?

The Cloud Assessment consists of a five-step approach during which your team will work with a team of Cloud experts. Together we will create an overview of the current analyzing tools and create an estimation of your IAAS cost in a public cloud model or Proximus cloud. After the assessment you will have the necessary details to choose the solutions that fit your requirements.

What will you receive?

Understanding
of current
cloud-readiness

As-is reporting

- > Overview of current IT architecture
- > Identification of current limitations

Understanding
of the business
requirements

As-is 2 cloud report

- > A mapping of the Azure public cloud provider
- > An indication of the monthly financial cost

Optimisation to reduce
cost and reach best
performance

To-Be report with Roadmap

- > A 5-year roadmap plan linked to your requirements
- > An indication of the monthly financial cost

CLOUD ASSESSMENT

Our promise

- > The Cloud Assessment helps you maximize the value of your cloud investment.

Our offer

- > We provide clear insight into your infrastructure which empowers you to make a data-driven decision with confidence.

Why choose Proximus?

Based on our experience we developed a strategic partnership together with Microsoft enabling us to deliver an optimal service level. In addition, Proximus Cloud Services are supported by a wide ecosystem of digital transformation experts. This puts us in a unique position to help you in your end-to-end digital transformation journey from providing basic telco services to full transformation services.
