Empowering
Delivery with AI

Why

Amplify Your Expertise

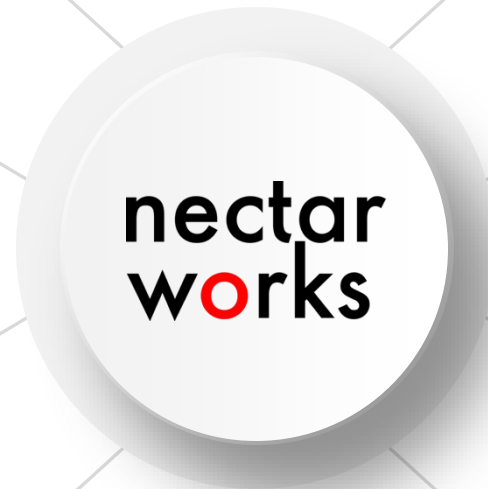

Handle Repetitive Tasks

Accelerate Delivery

Enhance Collaboration

What

Faster Project Starts

Smarter Sprint Planning

More Efficient Builds

Maintains Knowledge

NectarWorks is more than a platform—it's an **AI-powered teammate** embedded across the project lifecycle to accelerate delivery, reduce manual effort, and amplify your team's expertise by driving business value efforts.

nectar works

Delivery, reimagined

Workshops

Create an engaging workshop agenda using insights from previous projects and gathered artifacts, incorporating key questions to explore.

Backlog

Craft clear and concise user stories that describe the requirements, acceptance criteria, and testing plans as necessary.

Design / Build

The AI teammate gets to work

Sales to Delivery

Gather all sales artifacts and provide the necessary materials to ensure a successful kickoff.

Blueprint

Utilizing established standards and curated templates, develop a functional blueprint grounded in the outputs from the workshop to ensure project alignment.

Sprint Planning

Collaborate with the AI teammate to prioritize the sprint plan, ensuring that essential deliverables are met.

Nectar Works: Secure, Scalable AI Teammate

Our teams can improve your time to value by 20 - 40% along the project lifecycle
