# PS Chat: Enterprise AI Assistant & ChatGPT

publicis
sapient

Microsoft

PS Chat was one of the first private tenant implementations of chat on Azure

- Secure & private gen-AI implementation

- Hosted on Azure

- Allows colleagues to use generative AI tools without fear of leaking data or being hacked

- Easy to monitor usage and cost controls

- Chat today; developer environment tomorrow

Welcome to PSChat!

Choice of pretrained models   Built in collaboration tools   Number of specialist roles   Configurable settings
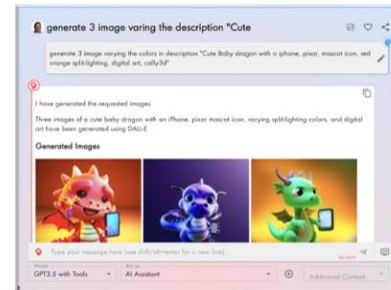

Generate API Keys
